Nassau County Commission on Human Rights
August 2010 marked Forty Five years of service to youth and families throughout Nassau County for the Youth Board and its network of Contract Agencies. The Youth Board was established to coordinate, fund and evaluate youth services in the County through youth development. Services offered include: guidance-oriented programs, recreation, tutoring, employment, HIV/teen pregnancy, runaway and homeless youth and counseling programs. Each not-for-profit Contract Agency has its own local, nonsalaried Board of Directors which is responsible for the agency’s policies and fiscal soundness. Approximately 35,000 youth are served on an annual basis by the Nassau County Youth Board and its Contract Agencies. It is estimated that double that number participate in special events.

Authorized by State and County law, the Youth Board expenditures for youth services in Nassau County are approximately eight million dollars annually, provided primarily by Nassau County and the New York State Office of Children and Family Services. Other funding sources include the Federal Government and certain County municipalities.

While the operative term used to be “juvenile delinquency,” the phrase “youth development” has taken its place. At the Youth Board youth development is the active process of creating conditions and fostering personal attributes that promote self-esteem. For the past thirty years, young people under the age of 21 who have participated in leadership training have served as members of the Youth Board.

The importance of the County’s youth service system is demonstrated in many ways. Youth Board staff and Board members provide training, technical assistance and advocacy to youth development programs throughout the County. Through active planning and research, the Youth Board is knowledgeable about political, social and economic trends that impact upon youth and their families within the system.

The Youth/Adult Participation Project (YAPP) recruits youth and adults from communities throughout Nassau County who volunteer their time and expertise to help determine priorities for youth services. This process enables young people to have a permanent voice in both the identification of needs and development of policies for programs that serve them, as well as a role in carrying out those programs through community service learning.
Leadership training increases young people’s knowledge of community institutions and prepares them to assume greater responsibilities in community life.

Each agency receiving funds from the Nassau County Youth Board must incorporate the following priorities into their programs:

- Youth participation in the design and carrying out of programs;
- Special attention to the concerns of Limited English Speaking populations;
- Issues of concern regarding runaway and homeless youth;
- Teen Pregnancy, HIV/AIDS and STI's Prevention;
- Collaborations
- Youth Employment
- Violence Prevention/Intervention

In addition to the aforementioned, the network of Contract Agencies also provide, but are not limited to, the following:

- Advocacy Services
- Outreach Services
- Youth Leadership Programs
- Crisis Intervention
- Substance Abuse Prevention
- Education Programs
- Cultural Enrichment
- Individual/Group/Family Counseling
- Parenting Skills
- Mentoring Programs
- Leisure Time Activities
- Juvenile Justice Services
- Community/School Partnerships
- Summer Lunch

Information and Referral Services, as well as the development of a three-year Comprehensive Plan, complete the Youth Board picture.
NASSAU COUNTY YOUTH BOARD CONTRACT AGENCIES

The following agencies are in contract with the Nassau County Youth Board for the delivery of various youth development services:

**Advisory Council for the Youth of Mineola**
Cristina Balbo, Executive Director
