Re: List of Qualified Engineers to provide On Call Engineering Services for the Nassau County Urban Consortium

Dear Consortium Member,

Attached is the pre-qualified list of engineers, established by the Nassau County Office of Housing and Intergovernmental Affairs, to provide on call professional engineering services for public facilities, commercial façade improvements, downtown streetscapes, parking lots, and playgrounds.

Please note that we have included the names of the firms, their principals, telephone information, their MBE/WBE status and their specialties/affiliations.

Please let me know if you have any questions. Thank you for your attention to this matter. I remain,

Very truly yours,

A handwritten signature in cursive script that reads "Rosemary A. Olsen".

Rosemary A. Olsen

Director

Direct Line: (516) 572-1905

The goal of establishing this list is to assist consortium member in complying with the federal procurement requirements of 24CFR Part 85.36. A written scope of services will be issued for each particular project, and you will be able to pick from the list 3 or 4 engineers/engineering firms that will meet your criteria for the project. These 3 or 4 engineering firms will submit a cost proposal and you will choose one from these 3 firms that best meets your criteria.

The scope of services required for a particular project will be identified and described in writing for the engineer to submit a cost proposal for consideration. Services will be provided to the County, municipalities, and/or not for profit organizations, after approval of the individual project related contract.

The four main goals we are trying to meet with this list are the following:

1. Assisting the Consortium in meeting the federal procurement requirements.
2. Increasing MBE/WBE participation in contracting.
3. Increasing government efficiency through centralized procurement.
4. Facilitating the development and redevelopment activities of communities and non profits.

Firm	Principals	Telephone Information	MBE/WBE	Specialties & Affiliations
Dvirka & Bartilucci 330 Crossways Park Drive Woodbury, New York 11797	Kenneth Prichard, Vice-President	516-364-9890 718-460-3634 Fax: 516-364-9045 Email: findingsolutions@db-eng.com		Specialties include space planning, school design, renovation and rehabilitation, roads, sidewalks, site development, storm drains, buildings, parking fields, construction mgt, surveying, wastewater collection and treatment, environmental studies, permitting, remediation, multimedia environmental compliance and water supply.
Carman- Dunne 2 Lakeview Avenue Lynbrook, New York 11563	John J. Toscano, President	516-599-5563 Fax: 516-593-4873		Specialties include surveying, mapping, design specifications, and construction supervision for projects such as playground, basketball and volleyball court construction, playground baseball field lighting, and construction of park areas.
Cashin Associates 1200 Veterans Memorial Highway Hauppauge, NY 11788	Alfred J. Angiola, President Francis J. Cashin, Executive Vice- President	631-348-7600 Fax: 305-579-2035		Specialties include engineering design, construction management and inspection, environmental analysis, forensic consulting, installation of elevators, sidewalk improvements, railroad station and parking facility improvements.
Fay, Spofford and Thorndike 500 Bi-Country Blvd, Suite 118 Farmingdale, NY 11735	Raymond H. Schaeffer, Chief Operating Officer	866-378-6369 (Toll Free) 631-756-5999 Fax:631-756-5944		Specialties include local roads, utilities and streetscapes, surface and structured parking, traffic engineering; highway and bridges; transportation facility planning; bike trails and recreational facilities; waterfront facilities; elevator construction, and urban revitalization projects.
PWGC Strategic Environmental Engineering Solutions 630 Johnson Avenue, Suite 7 Bohemia, NY 11716	Dr. Paul W. Grosser, PE President	631-589-6353 Cell: 516-315-6030 Fax:631-589-8705 Email: paulg@pwgrosser.com		Specialties include civil/environmental engineering design and services, water resources,(wastewater supply & wastewater) and stormwater management, environmental/regulatory compliance, and sustainability, Site management including soil/groundwater contamination and hazardous/non-hazardous waste solutions, redevelopment & Brownsfield, due diligence and & environmental site assessments and geothermal well design.
