

Miscellaneous Laws of Nassau County:

December 31, 2010

This compilation includes a selection of local laws that are not consolidated in the County Government Law of Nassau County (Nassau County Charter) or the Nassau County Administrative Code. These laws have been included in this compilation because they were identified for inclusion by the County Attorney when the Miscellaneous Laws were first compiled in 1985 pursuant to Resolution No. 70-1985, or because the Legislature has since indicated in a particular law that it was to be an addition or amendment to the Miscellaneous Laws. Other unconsolidated local laws may exist that have not been included in this compilation.

Verification of text:

The annexed has been reviewed and edited through December 31, 2010. Text may be compared for verification to the enacting and amending legislation. Such legislation can be obtained from the Office of the Clerk of the Legislature at (516) 571-4252. In case of any discrepancy between this compilation and the local laws as enacted by the Legislature, the latter shall be determinative.

The County is not responsible for any errors or omissions in this publication.

Other laws:

Users should also be aware that, in addition to these miscellaneous laws, local laws enacted by the County Legislature are codified in the Nassau County Charter (also called the County Government Law of Nassau County) and Nassau County Administrative Code of Nassau County. These are also available on the County website. In addition, there may be local laws that remain unconsolidated in any volume.

The County Legislature also acts by Ordinance and Resolution. Ordinances and Resolutions are not codified, but the proceedings of the Legislature are available through the office of the Clerk of the Legislature and at: <http://www.mccinnovations.com/weblink/Browse.aspx>.

Chapter 3. Legalization of Over-expenditures by Incorporated Village of Sea Cliff.

Section 1. The Incorporated Village of Sea Cliff, by petition duly verified on January 16, 1962, and filed with the Board of Supervisors, has requested the said Board of Supervisors to legalize and validate certain over-expenditures or obligations which have been incurred against a fund or account in excess of the total amount appropriated or lawfully transferred thereto. Such petition had annexed to it certified copies of a detailed, sworn statement of the Treasurer of the said Incorporated Village of Sea Cliff from which it appears that the aforesaid over-expenditures or obligations have been incurred through inadvertence, mistake or error; and the said petition also had annexed to it certified copies of affidavits and resolutions evidencing the holding of a public hearing in the said Incorporated Village of Sea Cliff, authorizing the presentation of the said petition to the Board of Supervisors of the County of Nassau.

Section 2. In pursuance of Resolution No. 165, 1962 of the Board of Supervisors of the County of Nassau, adopted on the 26th day of March, 1962, the Clerk of the Board was authorized and directed to publish a notice stating the time, place and purpose of a public hearing to be held by the said Board of Supervisors or a standing or special committee thereof, in relation to the said petition, which said time and place were the 16th day of April, 1962, at the Village Hall, Sea Cliff, New York; and directing, further that such notice of hearing was to be published in the Glen Cove Record-Pilot, a newspaper having general circulation in the Incorporated Village of Sea Cliff, and that said notice of hearing was also to be posted in three conspicuous places in the Incorporated Village of Sea Cliff, one of which was to be posted upon the bulletin board in the office of the Village Clerk of the Incorporated Village of Sea Cliff.

Section 3. That the notice of public hearing to be held by the Board of Supervisors or a standing or special committee thereof was thereafter published in the Glen Cove Record-Pilot and in the official newspapers, designated by the Board of Supervisors, on March 29, 1962, and affidavits of such publications are on file with the Clerk of the Board.

Section 4. That pursuant to Resolution No. 49, 1962 of the Board of Supervisors, relating to procedure, Supervisors John J. Burns, Clinton G. Martin and Joseph M. Reilly were designated as a Special Committee of the Board of Supervisors for the purpose of conducting the hearing referred to in sections 2 and 3 hereof. On April 16, 1962, a public hearing was held by the said Special Committee of the Board of Supervisors in the Incorporated Village of Sea Cliff and closed on the same day and no one appeared in opposition to the said petition. The minutes of the said hearing, held on April 16, 1962, are on file with the Clerk of the Board of Supervisors together with the written report of the Special Committee of the Board of Supervisors with regard to the proceedings at the said hearing.

Section 5. From all of the proceedings had herein and the papers on file with the Clerk of this Board, it appears that the 1960-61 budget of the Incorporated Village of Sea Cliff contained a deficit as of May 31, 1961, in the total amount of \$21,300.04, of which amount \$9,572.70

constituted extraordinary snow removal costs subsequently financed in pursuance of Chapter 494 of the Laws of 1961, leaving a balance overexpended against a fund or account in excess of the total amount appropriated or lawfully transferred thereto, of \$11,727.34.

Section 6. That such over-expenditures or obligations incurred against a fund or account in excess of the total amount appropriated was the result of inadvertence, mistake or error in accounting methods or otherwise and was not the result of fraud and no substantial hardship will result therefrom and the aforesaid acts were had and taken in connection with a lawful municipal object or purpose by the appropriate officials of the said Incorporated Village of Sea Cliff.

Section 7. That this Board determines that the acts in sections 5 and 6 of this local law are hereby legalized and validated.

Section 8. That the amount of the over-expenditures or obligations legalized and validated, as provided herein, may be paid from available funds or shall be deemed to be a settled claim within the meaning of paragraph a of subdivision 33 of section 11.00 of the Local Finance Law, which may be financed by the issuance of bonds or capital notes, provided, however, that the maximum maturity of any such bonds shall not exceed three years from the date of issuance of such bonds or from the date of issuance of the earliest bond anticipation note issued in anticipation thereof, whichever date is the earlier, and provided further, however, that the cost shall be charged against the area normally responsible for the payment of the over-expenditures or obligations hereby legalized and validated.

(These provisions enacted by Local Law No. 2, 1962, in effect May 28, 1962.)

The Probation Department shall have the duty of supervising the person during the period of such conditional release.
- F. If conditional release is not granted, the Parole Board shall inform the person in writing of the factors and reasons for such denial of conditional release within fifteen days of the decision. Such reasons shall be given in detail and not in conclusory terms. Inmates denied conditional release are eligible to reapply sixty days after the date of submission of the denied application.

Section 5. Conditional releases; procedures for violation, delinquency, warrants and revocation.

- A. If at any time during the period of conditional release, the Parole Board, or any member thereof, has reasonable cause to believe that a person who has been conditionally released has lapsed into criminal ways or company, or has violated one or more conditions of conditional release, the Parole Board or sue member may declare such person delinquent and issue a written declaration of delinquency. Upon such declaration, such Parole Board or such member may issue a warrant for the retaking and temporary detention of such person.

- E. The alleged conditional release violator shall appear before the Parole Board, or any member thereof, within fifteen days of the execution of the warrant. At the time of such appearance the Parole Board or such member shall ask the alleged violator whether he or she wishes to make any statement with respect to the violation. If the alleged violator makes a statement, the Parole Board or such member may accept it and base a decision thereon. If the Parole Board or such member does not accept it, or if the alleged violator does not make a statement, the Parole Board or such member shall proceed with the hearing.
- F. The Parole Board, or any member thereof, may receive any relevant evidence. The alleged violator may cross examine witnesses and may present evidence on his or her own behalf.
- G. The alleged violator is entitled to counsel at all stages of any proceeding under this section and the Parole Board, or any member thereof, shall advise him or her of such right upon delivering to the alleged violator written notice required pursuant to subdivision D of this section.
- H. At the conclusion of the hearing, the Parole Board, or any member thereof, shall issue a finding. If the Parole Board or such member is not satisfied that there is a preponderance of evidence in support of the violation, the Parole Board or such member shall dismiss the violation, cancel delinquency and restore the person to supervision. If the Parole Board or such member is satisfied that there is a preponderance of evidence that the alleged violator violated one or more conditions of conditional release in an important respect, the Parole Board or such member shall so find.
- I. Upon a finding in support of the violation, the Parole Board, or any member thereof, may revoke the conditional release, or continue or modify the conditions of such

conditional release. Where the Parole Board or such member revokes a person's conditional release, such person shall be committed to the custody of the Warden of the Correctional Center to serve the time remaining on his or her sentence, in accordance with subdivision three of section 70.40 of the penal law. Where the Parole Board or such member modifies the conditions of the conditional release, the Parole Board or such member shall inform the person in writing of such modified conditions.

Section 6. Transfer of custody and supervision of conditional release.

A. If a person who has been granted conditional release pursuant to this title resides or desires to reside in a place other than the one located within the jurisdiction of the Parole Board, the Parole Board or any member thereof, may designate any other Parole Board to assume local custody of such person and may so transfer custody.

B. Where custody of a person who has been granted conditional release pursuant to this title is transferred pursuant to subdivision A of this section, upon designation and prior to transfer, the Parole Board making the designation shall notify the Parole Board which has been designated to receive custody of such transfer. The Parole Board making the designation shall immediately forward its entire case record regarding such person to the receiving Parole Board. The Parole Board to which legal custody has been transferred shall assume the same powers and duties exercised by the designating Parole Board and shall have the sole custody of such person.

C. The Parole Board making the designation shall, upon designation and prior to transfer, notify the Probation Department located in the jurisdiction of the receiving Parole Board of the duties of supervision and conditions of release of such person. Upon such notification, such Probation Department shall assume responsibilities of supervision. TITLE 18

PRISONERS IN NASSAU COUNTY CORRECTIONAL CENTER - PAYMENT FOR MEDICAL OR DENTAL SERVICES IF INSURED

- | | | |
|---------|----|---|
| Section | 1. | Legislative intent |
| | 2. | Payment for medical or dental services if insured |
| | 3. | Severability |

Section 1. **Legislative intent.** Chapter 481 of the Laws of 1991 was enacted by the State Legislature on July 19, 1991, which Chapter authorized counties and the City of New York to require prisoners of county jails who require medical or dental services to pay for such services if insured under a Health Insurance Policy. The Board of Supervisors finds it to be in the best interest of the County of Nassau to require prisoners of the Nassau County Correctional Center who require medical or dental services to pay for such services if insured under a health insurance policy.

Section 2. **Payment for medical or dental services if insured.**

A. The County of Nassau shall be entitled to reimbursement for costs paid by it on behalf of inmates at the Nassau County Correctional Center for diagnoses, tests, studies or analyses for the diagnosis of a disease or disability, and care and treatment by a hospital, as defined in article twenty-eight of the Public Health Law, or by a physician, or by a dentist from any third party coverage or indemnification carried by an inmate.

B. Such third party coverage or indemnification shall first be applied against the total cost to the hospital or other provider as established in accordance with the provisions of section twenty-eight hundred seven of the Public Health Law relating to rates of payments of an individual's care and treatment, as provided herein.

Section 3. **Severability.** If any clause, sentence, paragraph, subdivision, section or part of this title or its application to any person or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this title or its application to the person or circumstance directly involved in the controversy in which such judgment or order shall be rendered.

TITLE 19

DISSEMINATING INDECENT CRIME MATERIAL TO MINORS

Section	1.	Legislative intent
	2.	Definitions of terms
	3.	Disseminating indecent crime materials to minors
	4.	Presumption and defense
	5.	Severability

Section 1. **Legislative intent.** The Board of Supervisors finds that in light of their limited experience, education and emotional development, children under the age of seventeen are impressionable and susceptible to the influence of violence and criminal conduct in our society. The dissemination of materials devoted to the depiction of heinous crimes and heinous criminals is a contributing factor to juvenile crime, a basic factor in impairing the ethical and moral development of our youth and a clear and present danger to the citizens of Nassau County. The County has a responsibility and an exigent interest to protect the welfare of its children and to see that they are safeguarded from influences which might prevent their growth into free and independent well-developed citizens by preventing the distribution to children of material deemed harmful to children.

The Board of Supervisors further finds that for generations, children have purchased and collected trading cards depicting war heroes, sports heroes and other luminaries whom they revere and emulate. In such form, trading cards are not harmful to children. When, however, trading cards which depict heinous crimes and heinous criminals and which appeal to the depraved interest of minors in crime are disseminated to our youth, they are harmful.

Section 2. **Definitions of terms.**

- A. "Minor" means any person under the age of seventeen.
- B. "Trading card" means any card, souvenir card, playing card or game card commonly known as a trading card.
- C. "Heinous crime" means murder, assault, kidnapping, arson, burglary, robbery, rape or other sexual offense.
- D. "Heinous criminal" means a person who has been convicted of a heinous crime or who has been found not criminally responsible by reason of mental disease or defect for criminal conduct concerning the commission of a heinous crime.

E. "Harmful to minors" means that quality of any description or representation in whatever form of a heinous crime, an element of a heinous crime or a heinous criminal, when it:

1. Considered as a whole, appeals to the depraved interest of minors in crime; and
2. Is patently offensive to prevailing standards in the adult community as a whole with respect to what is suitable material for minors; and
3. Considered as a whole, lacks serious literary, artistic, political and scientific value for minors.

Section 3. **Disseminating indecent crime material to minors.** A person is guilty of disseminating indecent crime material to minors when, with knowledge of its character and content, he sells or loans to a minor for monetary consideration in Nassau County any trading card which depicts a heinous crime, an element of a heinous crime, or a heinous criminal and which is harmful to minors. Disseminating indecent crime material to minors shall be a Class A misdemeanor.

Section 4. **Presumption and defense.**

A. A person who engages in the conduct prescribed by Section 3 of this Title is presumed to do so with knowledge of the character and content of the material sold or loaned.

B. In any prosecution for disseminating indecent crime material to minors, it is an affirmative defense that:

1. The defendant had reasonable cause to believe that the minor involved was seventeen years old or more; and
2. Such minor exhibited to the defendant a draft card, driver's license, birth certificate or other official or apparently official document purporting to establish that such minor was seventeen years old or more.

Section 5. **Severability.** If any clause, sentence, paragraph, subdivision, section or part of this Title or its application to any person or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this Title or its application to the person or circumstance directly involved in the controversy in which such judgment or order shall be rendered.

(Title 19 added by local Law No. 11-1992, in effect June 16, 1992.)

TITLE 20**

3. Investigation fee
4. Community service placement fee
5. Fee usage
6. Severability

Section 1. **Legislative intent.** Chapter 55 of the Laws of 1992 provides the County of Nassau with the power to impose a probation administrative fee on those individuals currently serving or who shall be sentenced to a period of probation upon conviction of any crime under Article 31 of the Vehicle and Traffic Law in relation to alcohol- and drug-related motor vehicle matters as well as the power to impose a probation investigation fee for investigations ordered by the Family Court in custody and visitation proceedings. The County Legislature finds it to be in the best interests of the County of Nassau to permit the Probation Department to collect such fees from all persons sentenced to probation as has been mandated by other counties in New York State. The County Legislature further finds it to be in the best interests of the County of Nassau to increase the current probation administrative fee for probationers other than those currently serving or who shall be sentenced to a period of probation upon conviction of any crime under Article 31 of the Vehicle and Traffic Law in relation to alcohol and drug-related motor vehicle matters. The County Legislature further finds it to be in the best interests of the County of Nassau to impose fees for pre-sentence investigations, electronic monitoring, drug-testing, victim impact panel sessions, and community service placements.

§ 2. Administrative, pre-sentence investigation, electronic monitoring, drug testing victim impact panel session, certificate of relief investigation, and community service placement fees.

 - (1) In addition to the pre-sentence investigation fees set forth above, an additional administrative fee of one hundred dollars (\$100) per investigation will be assessed for an individual for whom a pre-sentence investigation is conducted by the Sex Offender/Domestic

Violence Unit of the Nassau County Probation Department.

- D. An individual currently serving, or who shall be sentenced to a period of probation and who is required to submit to electronic monitoring by the Court pursuant to Section 65.10(4) of the Penal Law, shall pay the Probation Department a fee of not less than three dollars (\$3.00) per day and not more than twelve dollars (\$12) per day for such services from the time the probation period is commenced until such time as either the requirement of said monitoring is terminated by the Court, the Probation Department or the period of probation is terminated.
- E. An individual currently serving, or who shall be sentenced to a period of probation, required to submit to drug testing by the Court or the Probation Department, shall pay the Probation Department a fee of ten dollars (\$10) per test from the time the probation period is commenced until such time as the period of probation is terminated.
- F. An individual currently serving, or who shall be sentenced to a period of probation, required to attend, the victim impact panel by the Court of the Probation Department, shall pay the Probation Department a fee of thirty dollars (\$30) per session from the time the probation period is commenced until such time as the period of probation is terminated.

- H. An individual who is sentenced to the sanction of community service, to be placed by the Probation Department, shall pay a community service placement fee of one hundred fifty dollars (\$150) to the Probation Department at the time of the placement interview with the Probation Department. If the individual fails or refuses to pay the fee, the Probation Department may return the case to court for appropriate action.
- I. The provisions of Subdivision 6 of Section 420.10 of the Criminal Procedure Law shall govern for purposes of collection of the Administrative, Pre-Sentence Investigations, Certificate of Relief Investigations, Electronic Monitoring, Drug Testing, and Victim Impact Panel fees.
- J. The Administrative, Pre-Sentence Investigations, Certificate of Relief Investigations, Electronic Monitoring, Drug Testing, Victim Impact Panel, and community service placement fees authorized by this section shall not constitute, nor be imposed as, a condition of probation.
- K. The Probation Department shall waive all, or part, of the Administrative, Pre-Sentence Investigations, Certificate of Relief Investigations, Electronic Monitoring, Drug Testing, Victim Impact Panel, and community service placement fees where, because of the indigence of the offender, the payment of said fees would work an unreasonable hardship on the person convicted, his or her family or any other person who is dependent on such person for financial support.

- L. In the event of non-payment of any fees which have not been waived, the County may seek to enforce payment in any manner permitted by law for the enforcement of a debt.

§ 3. Investigation fee.

- A. When ordered to conduct an investigation pursuant to Section 653 of the Family Court Act involving custody and visitation proceedings, the Probation Department shall receive an investigation fee of not less than fifty dollars and not more than five hundred dollars from the parties in such proceeding for performing such investigation.
- B. Such fee shall be based on the parties' ability to pay the fee and the schedule for payment shall be fixed by the court issuing the order for investigation, pursuant to the guidelines issued by the Director of the Division of Probation and Correctional Alternatives.
- C. The court shall apportion the fee between the parties based upon the respective financial circumstances of the parties and the equities of the case.

The Department of Parks, Recreation and Museums shall, pursuant to subdivision six of section twelve hundred two-q of the Tax Law, accept applications for assistance from the two hundred fifty thousand dollars allocated pursuant to clause (ii) of paragraphs (a) and (b) of subdivision B of this section. As a result, the Legislature finds that the sale, labeling, and promotion of ephedrine-containing products should be registered and, in addition, ephedrine-containing products should not be sold to those under the age of 18. The Legislature hereby enacts this law in furtherance of its responsibility to protect the health and welfare of its residents.

Section 2. **Definitions of terms.**

- A. "Dietary supplement" or "drug" means a dietary supplement or drug as defined in 21 U.S.C. section 321.

TITLE 26

AGREEMENTS BETWEEN THE COUNTY OF NASSAU AND THE METROPOLITAN
TRANSPORTATION AUTHORITY, THE LONG ISLAND RAIL ROAD COMPANY AND

THE METROPOLITAN SUBURBAN BUS AUTHORITY

- Section 1. Findings
 2. Mass transportation agreements

Section 1. **Findings.** The County Legislature of the County of Nassau (the “County”) hereby finds and declares that a sound mass transportation infrastructure system, and the provision of mass transportation services to the public at adequate levels and reasonable cost, are essential to the County’s economy and the well-being of its residents. The County Legislature further finds that: the mass transportation services provided by the Metropolitan Transportation Authority (the “Authority”), Long Island Rail Road Company (“LIRR”) and Metropolitan Suburban Bus Authority (“LI Bus”) are an integral part of the County’s mass transportation system; the county is situated within the metropolitan transportation district served by the Authority; the LIRR, which is a subsidiary of the Authority, operates an extensive commuter railroad network throughout Long Island, with approximately 65% of its riders boarding in the County; and LI Bus, which is also a subsidiary of the Authority, operates, maintains and repairs omnibus facilities in the furnishing of omnibus fixed-route and paratransit service to the people of the County under a lease with the County, pursuant to which the County makes annual financial contributions to LI Bus for certain operating and capital costs.

The County further hereby finds and declares that a commitment on the part of the County to jointly undertake various mass transportation capital projects (as that term is defined in General Municipal Law section 119-q) with the Authority, LIRR and LI Bus will help ensure that the people of the County continue to be provided with necessary and convenient mass transportation services. In this regard, General Municipal Law, section 119-r expressly authorizes the County, *inter alia*, to adopt local laws authorizing (i) the acquisition, construction, reconstruction, improvement, equipment, maintenance or operation of one or more mass transportation projects; and (ii) the making of contracts with a public authority, including the authority, LIRR, and LI Bus, for the equipment, maintenance or operation of a mass transportation facility owned, acquired, constructed, reconstructed or improved by it. The County Legislature, therefore, hereby determines that it is in the best interests of the people of the County to adopt this local law pursuant to section 119-r of the General Municipal Law authorizing the joint undertaking of certain mass transportation capital projects with the Authority, LIRR and LI Bus and providing for the use and operation of those projects by the Authority, LIRR and LI Bus for the benefit of the residents of the County.

Section 2. **Mass transportation agreements.** Pursuant to the Authority conferred upon the County by section 119-r of the General Municipal Law, the County is hereby authorized from time to time to enter into one or more agreements, and amendments thereto, and amendments to existing agreements, with the Authority, LIRR and/or LI Bus, or any or all of them, or any other public authority, with respect to mass transportation facilities or capital projects.

TITLE 26*

BOX CUTTERS – PROHIBITION ON SALE TO MINORS, OPEN DISPLAYS AND POSSESSION ON SCHOOL PREMISES

*(So in original. Should read “Title 27”.)

Section	1.	Legislative intent.
	2.	Definitions.
	3.	Sale to minors.
	4.	Open display.
	5.	Possession on school premises.
	6.	Penalties.
	7.	Separability.

Section 1. Legislative intent. This local law is intended to promote the health and welfare of Nassau County residents, and protect the safety of our young people and our school environment. This new Title 26 prohibits the sale or transfer of “box cutters” to minors and prohibits the possession of box cutters on school grounds by those 21 years of age except under certain circumstances.

The law also regulates the display of “box cutters” for sale.

The Nassau County Legislature finds that while box cutters are valuable tools if used as intended, they have become weapons in the hands of those young people that act outside the law. The very features that make them practical tools also make them extremely dangerous if misused. Box cutters, which usually consist of a razor blade or sharp metal edge contained in a protective casing, are compact and easily concealed. Moreover, with their small size and packaging, they are prone to shoplifting when offered for sale in an open display.

Section 2. Definitions. For purposes of this Title:

- a. “Box cutter” means any knife consisting of a razor blade, retractable, non-retractable, or detachable in segments, attached to or contained within a plastic or metal housing, including, but not limited to, utility knives, snap-off knives, sheet rock knives, and box cart cutters.

b. "Person" means any individual, corporation, partnership, association, organization, or other legal entity. "Person" does not mean an adult parent or guardian of a minor, who gives to, or provides such minor with, a "box cutter" for home improvement or other such work.

c. "School premises" means the buildings, grounds, or facilities owned, occupied, or under the control or custody of public or private institutions for the primary purpose of providing educational instruction to students at or below the twelfth grade level or its equivalent. The term shall also include any vehicles used for the transportation of students or personnel of the institutions:

- i. owned, operated, or leased by such educational institutions; or
- ii. owned, operated, or leased by a person contracted to provide transportation of students for such educational institutions.

Section 3. **Sale to minors.**

a. It shall be unlawful for any person to sell, offer to sell, give and/or provide, or cause another person to sell, offer to sell, give, and/or provide a box cutter to any individual who has not yet attained eighteen (18) years of age.

b. Nothing in this section shall preclude an employer from temporarily providing a minor employee with a box cutter, so long as the instrument is used during said minor's course of employment, and such instrument is used only under the supervision of the employer, or said employer's agent.

Section 4. **Open display.** Any person who sells or offers box cutters for sale, shall place such box cutters on display only if such items are: (a) contained within a sealed and locked case; (b) located behind the service counter with access limited to the seller or his or her agents or employees; or, (c) stored in any other manner which restricts access to box cutters by customers and/or the general public.

Section 5. **Possession on school premises.**

a. It shall be unlawful for any individual who has not yet attained twenty-one (21) years of age to possess a box cutter while on school premises.

b. Nothing in this section shall preclude the temporary transfer to, and/or use by, an individual, who has not yet attained twenty-one (21) years of age, of a box cutter on school premises for a valid school-related purpose, where such instrument is used only under the supervision of a school staff person.

c. Nothing in this section shall preclude the possession and/or use of a box cutter on school premises by an individual, who has not yet attained twenty-one (21) years of age, so long as such individual is performing work on such premises during the course of his or her employment, and such instrument is used only under the supervision of his or her employer, said employer's agent, or a school staff person.

Section 6. **Penalties.** Any person who violates any provision of this title shall, for a first

offense, be guilty of a violation punishable by a fine of not more than two hundred fifty dollars. A second or subsequent offense shall be a Class B misdemeanor punishable by a fine of not more than five hundred dollars or three months imprisonment, or both.

Section 7. **Separability.** If any part or provision of this local law or the application thereof to any person, entity or circumstances be adjudged invalid by any court of competent jurisdiction, such judgment shall be confined in its operation to the part of or provision of or the application directly involved in the controversy in which such judgment shall have been rendered and shall not affect or impair the validity of the remainder of this local law or the application thereof to other persons, entities, or circumstances.

(Added by Local Law No. 1-1997, in effect May 6, 1997.)

TITLE 28

SMOKING LAW

I. Legislative intent.

A. The Nassau County Legislature finds that significant health risks have been determined to be attributable to exposure to environmental tobacco smoke (“ETS”). According to the United States Environmental Protection Agency (EPA), environmental tobacco smoke is a known carcinogen, which belongs in the category of group A (known human) carcinogens, and is responsible for 3000 lung cancer deaths each year in non-smoking adults. The EPA also concludes that ETS causes other significant health problems in adults and that exposure to ETS can pose substantial health risks to children. The EPA has concluded that exposure to ETS increases the risks of respiratory and middle ear diseases in children, contributing to between 150,000 and 300,000 cases of bronchitis and pneumonia in infants and young children each year, significantly worsens the condition of 200,000 to 1,000,000 asthmatic children, and contributes to new cases of asthma in once-healthy children.

B. The Nassau County Legislature supports the national health objective to reduce the incidence of adult smoking from the current prevalence of approximately 25 percent, to a level of 15 percent by the year 2000.

C. The Nassau County Legislature further finds that any regulation of smoking invokes significant nonhealth related concerns based solely on economic and social considerations.

D. It is the intent and purpose of this Law to decrease residents’ exposure to environmental tobacco smoke by increasing restrictions on smoking in public places within the County of Nassau and limiting the access of minors to cigarettes and tobacco products while striking a balance among the imposition of regulatory burdens on business, the rights of smokers and the health needs of non-smoking individuals.

II. Declaration of policy.

A. It is declared to be the policy of the Nassau County Legislature to discourage

smoking in Nassau County and protect non-smokers from the known harmful effects of second-hand smoke.

III. Definitions.

A. A “bar” or “tavern” shall mean a business establishment that is devoted to the selling and serving of alcoholic beverages for consumption by patrons on the premises and in which the service of food is incidental to the business of the facility. Service of food shall be considered incidental if the food service generates less than twenty percent (20%) of total annual gross sales. Any bar that generates twenty percent (20%) or more of total annual gross sales from the sale of food for on-premises consumption shall be considered a restaurant.

(Amended by Local Law No. 15-2002, in effect November 6, 2002.)

B. An “exempt organization” includes any volunteer fire department, any lodge of Free and Accepted Masons; any lodge of the Knights of Pythias; any lodge of the Benevolent and Protective Order of Elks; any council of the Knights of Columbus; the Catholic Daughters of America; any commandery of the Knights of Malta; any chapter of the American Legion; any lodge of the Order Sons of Italy in America; the Ancient Order of Hibernians; any post of the Jewish War Veterans of the United States, Inc.; any post or counties council of the Veterans of Foreign Wars of the United States, Inc.; any chapter, county, committee or department organization of the Disabled American Veterans; any Kiwanis Club; any Rotary Club; any Lions Club or any other similar organization.

C. A “place of employment shall be considered to have an insignificant portion of its work force composed of people under the age of eighteen years” if two percent or less of its work force is under the age of eighteen years. Workforce shall include but not be limited to employees, independent contractors, volunteers, interns and other similar positions whether paid or unpaid.

D. “Private social functions” shall mean any wedding, parties, testimonial dinners, meetings or other similar gatherings in which the seating arrangements are under the control of the organizer or sponsor of the event and not the person who owns, manages, operates or otherwise controls the use of the location in which the function is held.

E. “Public means of mass transportation” shall mean public buses, trains, vans, taxicabs and limousines and ticketing or boarding areas.

F. A “Restaurant bar area” shall mean a contiguous area of a restaurant containing a counter in which the service and consumption of food in this area is incidental to the service and consumption of alcoholic beverages. Service of food shall be considered incidental if the food service generates less than 40% of the total annual gross sales.

G. “School grounds” shall mean any building, structure and surrounding outdoor grounds contained within a public or private pre-school’s, nursery school’s, elementary school’s, high school’s, vocational learning center’s, child care facility’s or children’s institution’s legally defined property boundaries as registered in the County Clerk’s Office or any vehicles being used in a school capacity to transport children or school personnel.

H. A “smoking room” shall mean a room provided to allow smoking. It must be located so that nonsmoking patrons would not be required to enter the room and it must be served by a properly operating and properly maintained filter system that recirculates

clean air back into the building atmosphere or by a properly operating and properly maintained ventilation system exhausted to the outside of the building in such a way as to prevent the reintroduction of tainted air into the building atmosphere. The room must be provided with self closing floor to ceiling doors, which doors shall remain closed except to the extent necessary to permit ingress and egress to such room or the room must be negatively pressurized in such a way as to prevent the escape of smoke to the smoke free areas of the location. The smoking room shall not be the sole location of vending machines, waiting areas or the area of payment for services. Minors under the age of eighteen (18) years shall not be permitted access to the smoking room unless accompanied by a parent or legal guardian. If a smoking room is provided, then the non-smoking area of a location containing a smoking room shall be sufficient to meet customer demand and a determination may not be made that no such demand exists. If 75% of the location's capacity is designated as a no smoking area, then customer demand will be deemed to have been met.

I. "Smoking" shall mean the burning or combustion of tobacco-containing products or the carrying of ignited tobacco-containing products.

J. "Sports arenas and recreational areas" shall mean any indoor or outdoor sports pavilions, stadiums, gymnasiums, health spas, boxing arenas, swimming pools, roller or ice skating rinks or similar areas.

K. "Concourse area of a bowling center" is the area directly behind and immediately contiguous to the bowler settee area.

L. A "tobacco business" shall mean a sole proprietorship, corporation, partnership or other entity in which the primary activity is the sale, manufacture or promotion of tobacco, tobacco products and accessories either at wholesale or retail and in which the sale, manufacture or promotion of other products generates less than 10 percent of total annual gross sales.

M. "Herbal cigarette" shall mean any product made primarily of an herb or combination of herbs, and intended to be smoked in any of the methods that tobacco is smoked, including, but not limited to, as a cigarette, cigar or pipe filler.

 3. Veteran’s Real Property Exemption for Tenant-Stockholders in Cooperative Apartments.

Section 1. **Legislative Intent.** Chapter 406 of the Laws of 1995 enables a municipality to extend the senior citizen’s real property tax exemption to seniors who reside as tenant-stockholder’s in property owned by a cooperative apartment corporation. A new subdivision 3-a was added to §467 of the Real Property Tax Law qualifying such tenant-stockholders to apply for a senior citizen’s real property tax exemption. Section 1. **Legislative Intent.** The County Legislature hereby finds that the economy of

Long island is undergoing fundamental change. International competition has dramatically intensified with the adoption, on a global scale, of advanced technologies and modern production methods and is eroding the competitive position of Long island manufacturers and other businesses in the global economy and threatening their profitability, employment and future prospects. The end of the cold war and the consequent reduction in the nation's defense spending has made it imperative that defense industry manufacturers restructure themselves by changing or diversifying production to take advantage of commercial markets.

This County Legislature further finds that a vibrant high technology manufacturing sector is essential to sustain economic growth, and to continue the region's economic health and its ability to generate permanent private sector jobs. Improving industrial productivity, promoting quality products and services, encouraging high performance work organizations, facilitating defense industry conversion, enhancing the County's overall ability to compete in the production of manufactured goods and increasing international exports of Nassau County products and services are essential goals of the region's economic development policy. These goals require joint public and private cooperation to encourage improvements in manufacturing, exporting capability, and market access by individual manufacturers and other businesses. The County Legislature further finds that financial incentives are needed to help reduce the risks to manufacturers and other businesses inherent in undertaking new investments in modernization, productivity and quality improvements, conversion from defense to commercial production, accessing new markets, and export trade. The cost of financing, combined with the current shortage of bank credit for business, frequently discourages many manufacturers and other businesses, especially small and medium sized firms, from undertaking such projects.

Accordingly, the County Legislature hereby finds that the competitiveness of Long island's job intensive manufacturing economy and the health of the region's export trade will be enhanced and the public interest served by creating a linked deposit program, administered by the Department of Commerce and Industry, in which the County Treasurer is authorized to deposit County funds with participating banks at a reduced rate of return when such banks make lower cost loans, on the basis of such linked deposits, to qualifying businesses to improve productivity, competitiveness, access to new markets, and exporting capabilities.

Section 2. **Definitions.** As used in this title, the following terms shall have the following meanings:

- a. "Eligible business" means a business located in Nassau County which meets the following criteria:

d. “Linked deposit” means a deposit placed with a lender by the County Treasurer for a period of two years at the linked deposit interest rate, provided the lender agrees to:

- (1) lend the equivalent value of such deposit to an eligible business at the linked deposit interest rate provided in Section (2)(e) hereof, and
- (2) permit the deposit to be comprised of a series of ninety day deposits each bearing an interest rate equal to the linked deposit interest rate fixed at the time the original deposit is placed.

e. “Linked deposit interest rate” means for a linked deposit made in connection with any linked loan, a fixed rate of interest which is two hundred basis points below the lender’s posted two year certificate of deposit rate, or if the lender does not offer a two year certificate of deposit, is two hundred basis points below the average statewide rate for two year certificates of deposit as determined by the County Treasurer.

f. “Linked loan” means a loan for purposes of an eligible project, in an amount equal to a linked deposit and bearing interest as set forth in Section 7 hereof.

g. “Manufacturing firm” means a firm involved with extracting, smelting,

recovering, developing, preparing, compounding, converting, assembling or producing in any manner, minerals, raw materials, products or substances of any kind or nature, and shall include facilities related thereto for storage, warehousing or distribution, for research and development or for the discovery of new, and the refinement of known, substances, processes, and products.

h. "Program" means the Nassau County Linked Deposit Program.

Section 3. Establishment and purpose, linked deposit program authorization. The Nassau County Linked Deposit Program is hereby created. The purpose of the program is to encourage and assist eligible businesses within the County to undertake eligible projects that will materially contribute to improving their performance and competitiveness. The County Treasurer is hereby authorized to use any monies of the County that the County Treasurer is authorized to invest, as linked deposits for the program, except as is otherwise prohibited by law. Not more than two million dollars of such moneys shall be on deposit pursuant to the program at any given time.

Section 4. Responsibilities of Commissioner of Commerce and Industry; County Treasurer.

a. The Commissioner of Commerce and Industry shall administer the program created by this title and market and promote the program. The Commissioner, pursuant to a vote by a majority of the linked deposit advisory committee, shall make all determinations with respect to the application, use and implementation of the program for eligible projects. The advisory committee shall consist of the following members:

The Commissioner of Commerce and Industry as chair

The County Treasurer or his/her representative

The County Comptroller or his/her representative

A representative of the County Executive

Three (3) representatives of the County Legislature as selected by the Presiding Officer

One (1) representative of the County Legislature as selected by the Minority Leader

A representative of the Long Island Association, or any successor organization

b. The County Treasurer is authorized to invest County funds, in the manner authorized by and pursuant to the provisions of Sections 10 and 11 of the General Municipal Law, the County's investment policy, and otherwise in accordance with the provisions of the laws of the County and the State of New York, with lenders in linked deposits.

Section 5. Term of program. The program shall exist for a term which expires on the date this title expires. Linked loans may be made only during the term of the program and linked deposits shall mature no later than two years after the expiration of the term of the program.

Section 6. Linked loans. Linked loans shall be made by lenders pursuant to the program

only to eligible businesses in connection with eligible projects. Linked loans shall be limited to a maximum amount of five hundred thousand dollars. The credit decision for making a linked loan shall be made solely by the lender. Notwithstanding the length of the term of a linked loan, the linked deposit relating to the linked loan shall be for a period of not more than two years, except as provided in Section 9 of this title. In the event that the lender and the borrower agree to a term for longer than two years for the loan, the interest rate charged for the period of the loan beyond the initial two-year period shall be agreed to by the lender and the borrower without restriction by this title. No eligible business may receive more than one linked loan during the term of the program.

Section 7. Interest rate for linked loan. Lenders who make loans pursuant to the program shall not be entitled to charge any discount, points, origination fees, handling fees, service charges, refinancing fees or penalties or any charge other than those normally charged and in such amounts normally charged by the lender for loans of the type being made without regard to the program. The interest rate charged shall be two hundred basis points below the interest rate charged to a similarly situated business outside of the program. The lender shall certify to the Commissioner of Commerce and Industry that its interest rate meets the criteria set forth in this program.

Section 8. Application procedure.

a. The Commissioner of Commerce and Industry, pursuant to a vote by a majority of the linked deposit advisory committee, shall establish procedures and other requirements for participation in the program, and shall provide a simplified application form to the participating lenders for linked deposits. Such form shall reflect the qualifying information required by this title for eligible businesses and shall contain a statement by the applicant that inability to obtain the reduced interest rate provided by the program would impede the ability of the applicant to undertake the eligible project. Upon completion of an application for a linked deposit, the lender shall send the application, together with the interest rate certification required, to the Commissioner of Commerce and Industry who shall, pursuant to a vote by a majority of the linked deposit advisory committee, either approve or reject the application within twenty-eight days. The Commissioner of Commerce and Industry and the advisory committee shall evaluate each application based upon the following criteria:

- (1) the significance of the eligible project for improving the competitive position and profitability of the eligible business;
- (2) the materiality of a reduced cost of borrowing through the linked loan to the ability of the eligible business to undertake the eligible project;
- (3) the number of jobs likely to be created or retained, or other substantial economic benefits likely to be achieved as a result of the linked loan; and
- (4) such other criteria as the Commissioner of Commerce and Industry, pursuant to a vote by a majority of the linked deposit advisory committee, determines relevant.

b. If the linked deposit application is approved by the Commissioner of Commerce and Industry, pursuant to a vote by a majority of the linked deposit advisory committee, the Commissioner shall notify the County Treasurer that the Commissioner, pursuant to a vote by a majority of the linked deposit advisory committee, has determined that the application satisfies the requirements of this title, and the Commissioner shall request that the County Treasurer deposit funds with the lender, to the extent available, in accordance with Sections 10 and 11 of the General Municipal Law and the County's investment policy. Such deposits shall be secured in accordance with the provisions of Sections 10 and 11 of the General Municipal Law, and lenders receiving such deposits shall satisfy, in the sole judgment of the County Treasurer, all collateral and other requirements generally applied by the County Treasurer to funds invested by such office. The County Treasurer and the lender shall enter into a written deposit agreement in accordance with the County's investment policy. In no event shall any defect in any such agreement be asserted as a defense by a borrower on a linked loan made pursuant to the program. If in the objective opinion of the County Treasurer the financial position of the County would be adversely affected by the making of a linked deposit, the County Treasurer will be under no obligation to do so. The failure to make a linked deposit shall not give rise to a private cause of action.

Section 9. Renewal of linked deposit. A lender may, on behalf of a borrower, apply to the Commissioner of Commerce and Industry to request renewal of the linked deposit for an additional two-year period to coincide with a second two-year period of a borrower's linked loan. The Commissioner may grant such application if the Commissioner, pursuant to a majority vote of the linked deposit advisory committee, determines that the borrower, during the second two-year period of the linked loan, will create additional industrial modernization benefits or create additional export trade benefits or create additional jobs. If the Commissioner of Commerce and Industry, pursuant to a vote by a majority of the linked deposit advisory committee, grants such application, the Commissioner shall notify the County Treasurer that the Commissioner, pursuant to a vote by a majority of the linked deposit advisory committee, has determined that the application satisfies the requirements of this title and shall request the County Treasurer to continue the linked deposit with the lender for an additional two-year period in accordance with the provisions of Sections 10 and 11 of the General Municipal Law and the County's investment policy. Such linked deposit shall continue to be secured in accordance with Sections 10 and 11 of the General Municipal Law and the County's investment policy. The fixed interest rate on the continued linked deposit shall be the linked deposit interest rate in effect on the first day of the continuation of the linked deposit or such other rate agreed to by the County Treasurer and the lender. The County Treasurer and the lender shall enter into a written deposit agreement governing the continuation of the linked deposit in accordance with the County's investment policy. If in the objective opinion of the County Treasurer the financial position of the County would be adversely affected by the renewal of a linked deposit, the County Treasurer will be under no obligation to do so. The failure to renew a linked deposit shall not give rise to a private cause of action.

Section 10. Liability; early repayment and withdrawal. Nothing contained in this title shall impose liability on the County or any of its departments or employees for payment or

delays in payments of the principal of or interest on a linked loan. Any delay in payments or any default on a linked loan shall in no way affect the linked deposit agreement between the lender and the County Treasurer. However, in the event the interest rate of the linked loan shall be increased as a consequence of default or renegotiation, or the loan shall be charged off, the lender shall give the County Treasurer prompt notice of such event, and the County Treasurer shall thereafter withdraw the linked deposit upon not less than seven day's prior written notice to the lender. Upon early repayment of a linked loan, the lender shall within thirty days give the County Treasurer notice of such early repayment and the County Treasurer shall thereafter withdraw the linked deposit upon not less than seven days' prior written notice to the lender, and the interest rate payable on the linked deposit from the date of early repayment of the linked loan to the date of withdrawal of the linked deposit shall be the interest rate upon which the linked deposit interest rate was calculated without regard to the two hundred basis point reduction.

Section 11. Monitoring and annual report.

a. The Commissioner of Commerce and Industry shall monitor the activities of participating lenders and businesses and may require periodic reports or other information as the Commissioner of Commerce and Industry, deems necessary from participating lenders and businesses on the status of the linked loans and the projects to ensure compliance with the provisions and the intent of this title.

b. On or before February first nineteen hundred ninety-nine, the Commissioner of Commerce and Industry shall submit to the County Executive and the County Legislature a report regarding the activities of the program. Such report shall contain a statement of the cost of the program to the County because of reduced rates on funds invested in linked deposits. Such report shall also include, but shall not be limited to, the number and type of linked loans under the program and the amount thereof, the number and types of lenders making linked loans and of firms receiving linked loans; the geographic distribution of such lenders and firms, the approximate number of jobs created or retained as the Commissioner determines useful in evaluating the economic benefits of the program.

Section 12. Promotion of program. The Department of Commerce and Industry shall actively market and promote awareness of the program in all geographical areas of the County among banks, banking organizations, manufacturing firms, manufacturing organizations, and regional and local economic development agencies.

Section 13. Expiration. This title shall expire five years from its effective date.

Section 14. Severability. If any clause, sentence, paragraph, subdivision, section or part of this title or the application thereof to any person, individual, corporation, firm, partnership, entity or circumstance shall be ordered or adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this title, or in its application to the person, individual, corporation, firm, partnership, entity or circumstance, directly involved in the controversy in which such

order or judgment shall be rendered.

AUTHORIZATION OF REGULATORY AGREEMENT BETWEEN THE COUNTY OF
NASSAU AND THE NASSAU HEALTH CARE CORPORATION

Section	1.	Findings
	2.	Prescription of Facilities

Section 1. **Findings.** The County Legislature of the County of Nassau (the "County") hereby finds and declares that the transfer to the Nassau Health Care Corporation (the "Corporation"), of certain healthcare facilities and operations of the County (the "Healthcare Assets") by agreement between the County and the Corporation the "Acquisition Agreement"), is essential to the provision of healthcare services and health facilities for the benefit of the residents of the State of New York and the County, including to persons in need of healthcare services without the ability to pay as required by law.

The County further hereby finds and declares that the Corporation intends to finance the purchase of the Healthcare Assets with the issuance of its Health System Revenue Bonds, Series 1999 (Nassau County (NY) Guaranteed) (the "Corporation Bonds"), pursuant to a general resolution of the Corporation and a series resolution relating thereto (collectively, the "Resolution"), and in accordance with a bond purchase agreement (the "Bond Purchase Agreement"), by and between the Corporation and the underwriters with respect to the Corporation Bonds (the "Underwriters").

The County further finds and declares that the Act permits the County to elect in such regulatory agreement to refrain from exercising all or any portion of its authority to so regulate such charges, profits, dividends and disposition of property and franchises to the extent such charges, profits, dividends and disposition of property or franchise are regulated by the State of New York or any agency thereof.

Section 1. Legislative intent. The purpose of this law is to limit access to tobacco products by Nassau County's children and youth and to protect children and young people against the dangers of smoking encouraged by tobacco marketing. In addition, this legislature finds that candy products that mimic the packaging of tobacco brands and the likeness of tobacco products promote smoking among young people, and that candy cigarettes effectively serve to advertise smoking and tobacco brands to future smokers. Section 4. Enforcement and Penalties.

a) This law shall be enforced by the Nassau County Department of Health.

Section 6. **SEQRA.** This legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this action is an unlisted action under the provisions of Title 6 NYCRR Part 617, and that based on an evaluation of the environmental criteria set forth in §617.7(c) that are considered to be indicia of significant adverse environmental impacts, along with the recommendation of the Nassau County Planning Commission acting in its advisory capacity to the legislature, that such action will not have significant adverse impacts on the environment, and that no additional environmental review or action is necessary.

|---------|---|
| Section | 1. County Insignia Requirements Section |
| | 2. Prohibited Uses of Vehicles |
| | 3. Exceptions |
| | 4. Enforcement |
| | 5. Separability |

Section 1. County Insignia Requirements. All county vehicles, other than those which are used in undercover public safety related activities or to which the application of this section

would jeopardize the safety or security of the county employee in the course of performing his or her job, shall have affixed, in a size and manner clearly visible to the public, the Nassau County insignia on both the passenger and driver's side of the vehicle.

Section 2. No county vehicles shall be used by a county employee for transportation to or from work unless:

- a) the position to which that employee is assigned requires that employee be on twenty-four hour call as part of the job description of that position, and
- b) in fact, on a regular basis, that employee is likely to be required to use the vehicle for county purposes during times other than the normal work period of the employee.

Section 3. TITLE 41

NASSAU COUNTY EDUCATIONAL RESOURCE CENTER

- | | |
|---------|--|
| Section | 1. Legislative Intent |
| | 2. Establishment of the Educational Resource Center |
| | 3. Responsibilities of the Educational Resource Center |
| | 4. Protections Against Teacher Displacement |
| | 5. Sunset |

Section 1. **Legislative Intent.** The County Legislature finds that the residents of Nassau County, who are among the most highly educated in the United States, can provide a valuable

resource to supplement, on a voluntary basis, the work of teachers in the public schools of Nassau County. The County Legislature further finds that the occupational and life experiences of the residents of Nassau County when shared with the students of the public schools of Nassau County can provide an effective way to broaden and elevate the career goals of the students. The County Legislature further finds that these occupational and life experiences can provide a credible motivational link for students between the courses taught in the public schools and the post-graduation occupations that assume the knowledge and educational credentials gained as a result of having successfully completed these courses. The County Legislature further finds that there is currently not a forum on a county-wide basis that could make available to all public school districts information regarding the rich diversity of talents and experience that the residents of Nassau County are capable of offering to all the public school students of Nassau County. The County Legislature further finds that such a forum could be established without threatening the displacement of public school teachers by these volunteers since these volunteers will only supplement the educational resources currently available to the public school students of Nassau County and since it is possible to provide for additional protections against such displacement. The County Legislature further finds that upgrading the educational performance of the students of the public schools in Nassau County is crucial to maintaining a highly skilled workforce in Nassau County, which, in turn, is crucial to the economic development and growth of Nassau County. As a result, the County Legislature finds that it is in the best interests of the students, the parents, the teachers, the business community and all residents of Nassau County to establish a Nassau County Educational Resource Center (hereafter referred to as the "Center"). The Center will provide a forum in which to exchange information between the teachers in the public schools of Nassau County and the residents of Nassau County who wish to share with students the benefits of their occupational and life experiences. The intent of the Center would be to facilitate the match-up of volunteers from the community with teachers in the public schools who are interested in utilizing the knowledge and experience that the volunteers are offering to convey to the students of the public schools of Nassau County.

Section 2. Establishment of the Nassau County Educational Resource Center. There is hereby established the Nassau County Educational Resource Center. The Center shall be an independent agency, the director of which shall be appointed by the County Legislature. Prior to the appointment of the director, County Legislature shall appoint an interim coordinator, who shall serve without compensation and who shall seek to secure non-governmental sponsorship of the Center as the means of financing the operation of the Center. The interim coordinator shall not subsequently be eligible to serve as the director of the Center. Upon the securing of commitments of sponsors equaling \$200,000 (two hundred thousand) for the immediate twenty-four month period, the interim coordinator shall report such findings to the County Executive and the County Legislature. Upon the approval of a resolution by the County Legislature and the County Executive, affirming the findings of the interim coordinator regarding sponsorship, the County Legislature shall appoint the director of the Center. The functions of the Center shall be administered by a staff that is not to exceed two (2) individuals, one of whom shall be the director appointed by the County Legislature and one (1) of whom shall be appointed according to the civil service rules and regulations, unless a larger staff is approved by the County Legislature. The Center is authorized to accept from the private sector other donations, including donations of office space, equipment and supplies.

Section 3. Responsibilities of the Nassau County Educational Resource Center. The responsibilities of the Nassau County Educational Resource Center shall include:

- a) Developing and implementing an outreach program to make teachers and potential volunteers aware of the Center, its objectives and its services. This outreach effort shall include making information available to each public school district, to each public library, to civic associations and to senior citizens associations in Nassau County regarding the Center, its objectives and its services. This outreach effort shall also include involvement with the business community of Nassau County, including seeking to utilize the communications network of the business community and seeking its material support.
- b) Matching offers to volunteer with requests for volunteers from public school teachers of Nassau County.
- c) Providing information to school districts listing the names of volunteers and their areas of expertise, and facilitating the interviewing of volunteers by teachers, provided, however, that volunteers shall be allowed to participate in classroom presentations only with the approval of the teacher in whose class the presentation will be made and in a manner that conforms with the procedures of the respective school districts. In addition, the Center shall, upon request, also provide names of volunteers and their area of expertise to not-for-profit organizations that provide services to school districts consistent with the intent of this title as expressed in section 1 of this title, provided, however, that such organizations agree to abide by section 3(c) and section 4 of this title, and, further provided that any volunteer who does not wish to have his or her name transferred to such organizations may so designate that preference, and it shall be adhered to by the Center. In addition, such organizations shall not sell or otherwise transfer names of volunteers and their areas of expertise to any other person or organization for a fee or any other form of remuneration.
- d) Making the necessary and appropriate inquiries to verify the credentials of volunteers.
- e) Consulting with the Nassau County Police Department to determine, based on information available to the Police Department, the suitability of the volunteers to be present in a school environment. As part of meeting this responsibility, the Center shall provide prospective volunteers with release forms consenting to the Police Department's making such inquiries as are necessary and appropriate for any findings to be included in a Letter of Good Conduct. It shall be the responsibility of the prospective volunteer to request such Letter of Good Conduct. Such Letter of Good Conduct shall be transmitted to the prospective volunteer, with a copy forwarded to the Center on a confidential basis, and the Center shall use the findings in the Letter of Good Conduct in its determination as to the suitability of volunteers to be present in a school environment. The Letter of Good Conduct shall be deemed by the Center to be valid for twenty-four months from the date of issuance. Volunteers shall also make available to the Center all information requested by the Center and all information of their own knowledge necessary to the Center's making this determination. The Center shall have the right, based on the information made available to it through this subsection, to exclude volunteers from participating in the activities of the Center, provided, however, that the Center shall not publicly disclose

its reasons for such determination to exclude a volunteer from participation without the consent of the excluded volunteer, unless the excluded volunteer publicly disputes the determination.

f) Receiving assessments from teachers regarding the performance of the volunteers and the usefulness of the presentation of the volunteers to students. As part of this process, a member of the faculty or administration shall be present throughout the presentation of the volunteers. These assessment forms shall be available on a confidential basis to other teachers who seek to participate in this program.

g) Soliciting sponsorship and funding from non-governmental entities, as well as funding from other levels of government.

h) Reporting to the County Legislature and the County Executive in February and July of each year regarding the activities of the Center, including the number of teachers, volunteers and school districts participating, an assessment of the effectiveness of the Center in meeting the objectives specified in section 1 of this Title, the reactions of the participants in the activities facilitated by the Center, the prospects for the procuring of funding from other levels of government, and any recommendations regarding improvements that could be made in the Center and whether the operations of the Center should be continued.

Section 4. Protections Against Teacher Displacement. The participation of volunteers in the activities facilitated by the Educational Resource Center shall not displace teachers or other school related personnel in the public schools of Nassau County. In furtherance of this objective, no volunteer shall participate in more than one presentation per month per course per public school district.

Section 5. Sunset. The Center shall be terminated on January 1, 2003 unless specifically reauthorized by an act of the Legislature.

Section 6. Separability. If any part of or provision of this title or the application thereof to any person or circumstance be adjudged invalid by any Court of competent jurisdiction, such judgment shall be confined in its operation to the part of or the provision of or application directly involved in the controversy in which such judgment shall have been rendered and shall not affect or impair the validity of the remainder of the title or the application thereof to other persons or circumstances.

TITLE 49

CARBON DIOXIDE EMISSIONS REGULATION

Section	1.	Legislative Intent
	2.	Definitions
	3.	Requirements
	4.	Penalties
	5.	Severability
	6.	Applicability

Section 1. **Legislative Intent.** This Legislature hereby finds and determines that the growing economy and the use of new electrical devices by Nassau County customers has dramatically driven up demand for electricity, potentially beyond the availability of our current power supply; that without comparable increases in power generation to meet the demand or increased emphasis on energy conservation, the county will face brownouts and blackouts as well as price spikes; and that energy experts have recommended several measures to address the potential power crisis, including the construction of new generating plants.

This Legislature further finds and determines that these concerns are occurring while the utility industry is being deregulated, e.g., in April 1996, The Federal Energy Regulatory Commission ("FERC") ordered utilities that own, control or operate facilities used for transmitting electric power to let other companies buy and sell power over their distribution systems and in May 1996, the New York State Public Service Commission ("PSC") issued an initial restructuring plan that permitted competition for the production and sale of electricity to begin in 1998. As a result, the production and sale of electricity is beginning to open to competition so that customers can decide from which company they will purchase electricity.

This Legislature further determines that deregulation of the industry and the high market demand for electricity by county consumers has resulted in a surge of entities applying for permits to build new generating plants within the county or to expand the output of existing ones, the proposed construction of which raises environmental concerns.

This Legislature also determines that many of the applicants seeking to run the proposed plants will continue to operate older less efficient, less environmentally sound plants in tandem with newer, more efficient, less polluting plants; that the cumulative impact of emissions from the clustering of plants is unknown; and that the amount of harmful emissions which new power plants will emit, in particular, the impact of - emissions such as carbon dioxide ("CO₂"), responsible for such environmental hazards as global warming is of concern.

This Legislature finds that companies proposing the construction of new power plants or increased generation make numerous assurances that the new technologies will be utilized for new power plants, which will not only increase overall efficiency but will also reduce harmful emissions, even though many of these companies intend to continue to utilize older, less efficient polluting facilities.

This Legislature also determines that the need for expanding energy sources requires the implementation of a strategy that takes into account the protection of the environment as well as energy needs.

This Legislature finds that, over time, CO₂ emissions rates will decrease, as more efficient power plants are installed and older power plants incorporate more efficient processes for generating greater levels of electricity without increasing the use of fossil fuels, the end result

of which will be a cleaner, healthier environment for the county's citizens, without a sacrifice in energy demands.

Therefore, the purpose of this law is to encourage owners of existing power plants and steam generating facilities, as well as newcomers to the Nassau County electric and steam generating power industry, to maximize efficiency by incorporating technological advances in energy production that increase electricity generation through the establishment of a rate of allowable carbon dioxide emissions per megawatt-hour, or equivalent megawatt-hour of generated electricity, for all power plants and steam generating units located in the county to protect the health, safety, and well-being of Nassau County residents. This law would not require an increase in fossil fuel consumption, and, thus, do not increase carbon dioxide emissions.

Section 2. **Definitions.** As used in this law, the following terms shall have the meanings indicated:

A.) "Electric Generating Unit" shall mean any fossil fuel fired combustion unit or a combination of units at a single facility located in the County of Nassau with a single or aggregate nameplate capacity of more than 25 megawatts that serves as a generator which produces electricity for use or sale or any fossil fuel fired combustion unit located in the County of Nassau that produces steam for sale.

B.) "Steam Generating Unit" shall mean any fossil fuel fired combustion unit or a combination of units at a single facility located in the County of Nassau with a capacity of more than 25 megawatts that serves as a generator that produces electricity for use or sale or any fossil fuel fired combustion unit located in the County of Nassau that produces steam for sale.

Section 3. **Requirements.**

A.) The provisions of this section shall apply to every electric generating unit and steam generating unit located within the County of Nassau.

B.) Notwithstanding any other provision of law, the County Department of Health ("Department"), shall develop standards for reductions in emissions of carbon dioxide by electric generating units and steam generating units in accordance with the provisions of this section. The Department shall promulgate rules, including, but not limited to, a quarterly reporting requirement, no later than May 1, 2002, in relation to reducing such emissions of carbon dioxide. The Department shall require all electric generating units and steam generating units to comply with an emission standard expressed in pounds of carbon dioxide emitted per megawatt-hour of electricity generated.

1.) No later than July 1, 2002, the Department shall set an emissions rate for carbon dioxide emissions for all electric generating units and steam generating units at a level of one thousand eight hundred (1,800) pounds of carbon dioxide per gross megawatt-hour (MWh) or equivalent MWh of electricity generated. Equivalent MWh is defined as one hundred percent of the gross electrical energy produced by a unit plus one half the gross useful thermal output energy of the unit converted to MWh according to

the following equation: $\text{total gross MWh} + (0.5)(\text{gross thermal output mmBtu}) / (3.413 \text{ mmBtu/MWh}) = \text{equivalent MWh}$. On July 1, 2002 and every July 1st thereafter, the allowable County-wide emissions rate for carbon dioxide shall be reduced by one percent (1%) for every one hundred megawatts of electric generating capacity installed within the County of Nassau during the previous year until such time as the allowable emissions rate for carbon dioxide has been reduced by twenty percent (20%). Any new capacity above the baseline emission rate shall be excluded for the purpose of setting a lower emission rate. However, all new electric generating capacity shall be required to meet the lower emission rate. Generating facilities that could normally comply through a strategy of burning natural gas fuel shall not be subject to non-compliance enforcement for MWhs produced when they are compelled by established electric system reliability rules to burn fuel oil.

- 2.) The Department shall establish a carbon dioxide emission credit trading mechanism to be approved by the Nassau County Legislature and allow the operators of all electric generating units and steam generating units subject to this section to achieve compliance through the purchase of carbon dioxide emission credits through established carbon dioxide trading market or by acquiring the equivalent value of such carbon dioxide credits by investments it, or the electric distribution company to which it sells energy, makes in energy conservation, energy efficiency, research and development of alternative energy sources including, but not limited to, solar, wind, fuel cells, and other strategies that reduce carbon dioxide emissions. In addition, after approval by the Nassau County Legislature via duly enacted resolution of the County of Nassau, the Department may allow the operators of electric generating units and steam generating units (or the electric distribution company to which it sells energy) subject to this section to achieve compliance through donation of penalties to community environmental organizations for implementation of strategies that reduce carbon dioxide emissions in Nassau County. Credit shall be allowed for equivalent energy reductions made through investments since 2002.
- 3.) The emission standards for carbon dioxide required by this section shall not be construed to supersede more stringent emission standards, limitations, and/or practices that are applicable to electric generating units on the effective date of this law or may be applicable after such effective date.

Section 4. Penalties.

A.) Operators of electric generating units or steam generating units who fail to meet the obligations and requirements of Section 3 of this law shall be subject to civil fines after a due process hearing as follows:

- 1.) an amount equal to two dollars (\$2.00) for each ton of carbon dioxide emissions in the first year above the requirements set forth in this section.
- 2.) an additional one dollar (\$1.00) for each ton of carbon dioxide emissions above the requirements set forth in this section shall be imposed for each consecutive year thereafter that the electric generating unit or steam generating unit fails to meet its obligations pursuant to the requirements of this law.
- 3.) such amounts shall be collected by the appropriate agency designated by the Department.
- 4.) the Department shall submit an annual report (July 31 of each year) to the County Executive and the County Legislature and the County Comptroller regarding the amount of the fines collected pursuant to this section.

Section 5. **Severability.** If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

Section 6. **Applicability.** This law shall apply to all actions occurring on or after the effective date in accordance with the phased in schedule set forth in Section 3 of this law. (Added by Local Law No. 3-2002, in effect April 22, 2002.)

In the implementation of this section, the contracting agency shall consider compliance with the requirements of any federal or state law concerning opportunities for minority and women-owned business enterprises which effectuates the purpose of this section. The contracting agency shall determine whether the imposition of the requirements of any such law duplicate or conflict with the provisions hereof and if such duplication or conflict exists, the contracting agency may waive the applicability of this local law to the extent of such duplication or conflict.

Section 105. Rules for utilization of subcontractors.

1. The Director shall promulgate rules and regulations requiring that all contractors use best efforts to achieve participation in subcontracting by minority-owned business enterprises and women-owned business enterprises in accordance with percentages set by the Director to reflect the percentage of minority and women-owned businesses available to perform such work. Such percentages shall be based on the findings and conclusions of the disparity study.

2. Contracting agencies shall administer the rules and regulations promulgated by the Director to ensure compliance with the provisions of this section. Such rules and regulations shall require a contractor to submit a utilization plan after bids are opened, when bids are required; or in a contractor's response to a RFP; but in all cases prior to the award of a county contract, shall require the contracting agency to review the utilization plan submitted by the contractor within a reasonable period of time as established by the Director; shall require the contracting agency to notify the contractor in writing within a period of time specified by the Director as to any deficiencies contained in the contractor's utilization plan; shall require remedy thereof within a period of time specified by the Director; may require the contractor to submit periodic compliance reports relating to the operation and implementation of any utilization plan; shall allow a contractor to apply for a partial or total waiver of the minority and women-owned business enterprise participation requirements pursuant to subdivisions five and six of this section; shall allow a contractor to file a complaint with the Director pursuant to subdivision seven of this section in the event a contracting agency has failed or refused to issue a waiver of the minority and women-owned business enterprises participation requirements or has denied such request for a waiver; and shall allow a contracting agency to file a complaint with the Director in the event a contractor is failing or has failed to comply with the minority and women-owned business enterprise participation requirements set forth in the county contract where no waiver has been granted.

3. The rules and regulations promulgated pursuant to this subdivision regarding a utilization plan shall provide that where enterprises have been identified within a utilization plan, a contractor shall make its best efforts to utilize such enterprise at least to the extent indicated. A contracting agency may require a contractor to indicate within a utilization plan, what measures and procedures he or she intends to take to comply with the provisions of this local law, but may not require, as a condition of award of, or

compliance with, a contract that a contractor utilize a particular enterprise in performance of the contract.

4. Without limiting other grounds for the disqualification of bids or proposals on the basis of non-responsibility, a contracting agency may disqualify the bid or proposal of a contractor as being non-responsible for failure to remedy notified deficiencies in the contractor's utilization plan within a period of time specified in regulations promulgated by the Director after receiving notification of such deficiencies from the contracting agency. Where failure to remedy any notified deficiency in the utilization plan is a ground for disqualification, that issue and all other grounds for disqualification shall be stated in writing by the contracting agency. Where the contracting agency states that a failure to remedy any notified deficiency in the utilization plan is a ground for disqualification the contractor shall be entitled to an administrative hearing, on a record, involving all grounds stated by the contracting agency. Such hearing shall be conducted by the appropriate authority of the contracting agency to review the determination of disqualification. A final administrative determination made following such hearing shall be reviewable in accordance with law.

5. Where it appears that a contractor, after making its best efforts, cannot comply with the minority and women-owned business enterprise participation requirements set forth in a particular county contract, a contractor may file a written application with the contracting agency requesting a partial or total waiver of such requirements setting forth the reasons for such contractor's inability to meet any or all of the participation requirements together with an explanation of the efforts undertaken by the contractor to obtain the required minority and women-owned business enterprise participation. In implementing the provisions of this section, the contracting agency shall consider the number and types of minority and women-owned business enterprises located in the county, the total dollar value of the county contract, the scope of work to be performed and the project size and term. It based on such considerations, the contracting agency determines there is not a reasonable availability of contractors on the list of certified business to furnish services for the project, it shall issue a waiver of compliance to the contractor. In making such determination, the contracting agency shall first consider the availability of other business enterprises located in the county and shall thereafter consider the financial ability of minority and women-owned businesses located in the county to perform the county contract.

6. For purposes of determining if a contractor has made its best efforts to comply with the requirements of this section or to be entitled to a waiver, the contracting agency shall consider:

- a. whether the contractor has advertised in general circulation media, trade association publications, and minority-focus and women-focus media and, in such event,
 - i. whether or not certified minority or women-owned businesses which have been solicited by the contractor exhibited interest in submitting proposals for a particular project by attending a pre-bid conference; and

- ii. whether certified businesses which have been solicited by the contractor have responded in a timely fashion to the contractor's solicitations for timely competitive bid quotations prior to the contracting agency's bid date; and
- b. whether there has been written notification to appropriate certified businesses that appear in the directory of certified businesses prepared pursuant to paragraph (f) of subdivision two of section one hundred two of this local law; and
- c. whether the contractor can reasonably structure the amount of work to be performed under subcontracts in order to increase the likelihood of participation by certified businesses.

7. In the event that a contracting agency fails or refuses to issue a waiver to a contractor as requested within twenty days after having made application therefore pursuant to subdivision five of this section or if the contracting agency denies such application, in whole or in part, the contractor may file a complaint with the Director pursuant to section one hundred nine of this local law setting forth the facts and circumstances giving rise to the contractor's complaint together with a demand for relief. The contractor shall serve a copy of such complaint upon the contracting agency by personal service or by certified mail, return receipt requested. The contracting agency shall be afforded an opportunity to respond to such in writing.

8. If, after the review of a contractor's minority and women-owned business utilization plan or review of a periodic compliance report and after such contractor has been afforded an opportunity to respond to a notice of deficiency issued by the contracting agency in connection therewith, it appears that a contractor is failing or refusing to comply with the minority and women-owned business participation requirements as set forth in the county contract and where no waiver from such requirements has been granted, the contracting agency may file a written complaint with the Director pursuant to section one hundred nine of this local law setting forth the facts and circumstances giving rise to the contracting agency's complaint together with a demand for relief. The contracting agency shall serve a copy of such complaint upon the contractor by personal service or by certified mail, return receipt requested. The Director shall periodically update the directory.

3. Following application for certification pursuant to this section, the Director shall provide the applicant with written notice of the status of the application, including notice of any outstanding deficiencies, within thirty days. Within sixty days of submission of a final completed application, the Director shall provide the applicant with written notice of a determination by the office approving or denying such certification and, in the event of a denial a statement setting forth the reasons for such denial. Upon a determination denying or revoking certification, the business enterprise for which certification has been so denied or revoked shall, upon written request made within thirty days from receipt of notice of such determination, be entitled to a hearing before an independent hearing officer designated for such purpose by the Director. In the event that a request for a hearing is not made within such thirty-day period, such determination shall be deemed to be final. The independent hearing officer shall conduct a hearing and upon the conclusion of such hearing, issue a written recommendation to the Director to affirm, reverse or modify such determination of the Director. Such written recommendation shall be issued to the parties. The Director, within thirty days shall, by order, accept, reject or modify such recommendation of the hearing officer and set forth in writing the reasons therefor. Full-time employees shall accrue such leave at a rate of one day per month of full-time employment. Part-time employees who work twenty or more hours per week shall accrue such leave in increments proportional to the rate of accrual for full-time employees. Any employee shall be eligible to begin using such accrued leave six months following his or her start date of employment, or consistent with company policy, whichever is sooner. Paid holidays, consistent with established employer policy, may be counted toward provision of the required twelve compensated days off. c. Exemption for minors and employment programs, the disabled, child care

This law shall not apply to:

2) any disabled employee, where such disabled employee:

(A) is covered by a current sub-minimum wage certificate issued to the employer by the United States department of labor; or

(B) would be covered by such a certificate but for the fact that the employer is paying a wage equal to or higher than the federal minimum wage.

3) any county service contract or county financial assistance in relation to the furnishing of child care services; sleep away camp services for the disabled; pre-school services provided pursuant to section forty-four hundred ten of the New York State Education Law; and early intervention services, as defined in section twenty-five hundred forty-one of the New York State Public Health Law.

4) any county service contract or county financial assistance where the application of this law in a particular case would violate any specific state or federal statutory, regulatory, or constitutional provision.

d. No effect on county wage pattern

Nothing in this law shall be construed to establish a wage or benefit pattern for county employees.

§ 4. Duration

a. For CFARs, assistance given by the county in an amount equal to or greater than fifty thousand dollars in any twelve month period shall require compliance with this chapter for the life of the contract in the case of assistance given to fund a program, or for five years in the case of assistance given for the purchase of real property or personal property to construct facilities, including but not limited to materials, equipment, fixtures, merchandise, and machinery.

b. A service contractor and subcontractor shall be required to comply with this chapter for the term of the county service contract.

§ 5. Obligations of Employers

a. Certification of Compliance. 1) Prior to the award of a county service contract, county financial assistance or county lease, any employer seeking such contract, financial assistance or lease shall provide the county with a certification containing the following information:

(A) the name, address, and telephone number of the chief executive officer of the employer;

(B) a statement that, if the county service contract, county financial assistance or county lease is awarded, the employer agrees to comply with the requirements of this law, and with all applicable federal, state and local laws;

(C) a record of any instances during the preceding five years in which the employer has been found by a court or government agency to have violated federal, state or local laws regulating payment of wages or benefits, labor relations or occupational safety and health, or where any government body initiated a judicial action, administrative proceeding or investigation of the applicant in regard to such laws; and

2) A county contractor shall each year throughout the term of the county service contract submit to the county an updated certification whenever there have been material changes to information contained in the current certification.

b. Payroll records.

Every employer shall maintain original payroll records for each of its employees reflecting the days and hours worked on contracts, projects or assignments that are subject to the requirements of this law, and the wages paid and benefits provided for such hours worked, for a period of four years after completion of the term of the county service contract or receipt of county financial

assistance. Upon request by the comptroller, a covered employer shall grant county employees access to worksites and produce, for inspection and copying, its payroll records and any other data that may be required by the comptroller from time to time for any or all of its covered employees for the prior four-year period. Failure to maintain such records as required shall create a rebuttable presumption that the covered employer did not pay its covered employees the wages and benefits required under the law.

§ 6. Implementation by county

a. The county shall comply with and enforce the requirements of this law, which shall be a term and condition of any county service contract, county financial assistance or county lease. The county shall not expend county funds in connection with any county service contract, county financial assistance, or county lease in contravention of the provisions of this law.

b. Every county service contract, county financial assistance agreement, or county lease shall have annexed to it the following materials which shall form a part of the specifications for and terms of such contract or agreement:

(A) a provision obligating the employer to comply with all applicable requirements under this law, as well as a provision providing that: (i) failure to comply with the requirements of this law may constitute a material breach by the employer; (ii) such failure shall be determined by the county; and (iii) if, within thirty days after such employer receives written notice of such a breach, the employer fails to cure such breach, the county shall have the right to pursue any rights or remedies available under the terms of such county service contract, county financial assistance, or county lease or under applicable law, including termination of such contract or assistance;

(B) the certification required under subdivision a of section five of this law.

§ 7. Monitoring and enforcement

a. The comptroller shall have the authority to monitor, investigate, and audit compliance by all contracting agencies and may contract with non-governmental agencies to investigate possible violations.

b. The county executive or his or her designee may promulgate rules to implement the provisions of this law and may delegate such authority to the comptroller.

c. The comptroller shall submit an annual report to the county executive and the county legislature summarizing and assessing the implementation of and compliance with this law during the preceding year.

d. Where an employer has been determined to have violated any provision of this title, such employer shall be given written notice thereof by the county. If, within thirty days after such employer receives such notice, he or she fails to cure such breach, the county shall have the right to pursue any rights or remedies available under the terms of its contract or CFAR agreement with such employer, or under applicable law, including, but not limited to:

(i) suspension and termination of such contract or financial assistance;

(ii) payback of any or all of the contract or financial assistance awarded by the county;

(iii) declare the employer ineligible for future county service contracts, county financial assistance and county leases until all penalties and restitution have been paid in full;

(iv) imposition of a fine payable to the County as follows:

1. upon the issuance of the first written notice of a violation of this title an employer shall be fined in the amount of \$500 each week for each employee found not to have been paid in accordance with this title;

2. if within thirty days after such employer receives the first written notice of violation, such employer fails to cure such breach, such employer shall receive a second notice of such violation and shall be fined in the amount of \$1,000 each week thereafter for each employee found not to have been paid in accordance with this title;

3. if within thirty days after such employer receives a second written notice of violation, such employer fails to cure such breach, such employer shall receive a third notice of such violation and shall be fined in the amount of \$2,000 each week thereafter for each employee found not to have been paid in accordance with this title;

(v) wage restitution plus 9% simple interest for each such employee.

§ 8. Private Right of Action

a. An employee may, in addition to any other remedy provided by this law, institute an action in any court of competent jurisdiction against the employer alleged to have violated this law. For failure to pay wages or provide benefits required under this law, such court may award any of the remedies provided under section one hundred ninety eight of the New York state labor law. For failure to comply with other requirements of this law, including protections against retaliation and discrimination, the court may award any appropriate remedy at law or equity, including but not limited to back pay, payment for wrongly denied benefits, interest, other equitable or make-whole relief, reinstatement, injunctive relief and/or compensatory damages. The court shall award reasonable attorney's fees and costs to any complaining party who prevails in any such enforcement action.

b. Notwithstanding any inconsistent provision of this law or of any other general, special or local law, ordinance, county charter or administrative code, an employee affected by this law shall not be barred from the right to recover the difference between the amount paid to the employee and the amount which should have been paid to the employee under the provisions of this law because of the prior receipt by the employee without protest of wages or benefits paid, or on account of the employee's failure to state orally or in writing upon any payroll or receipt which the employee is required to sign that the wages or benefits received by the employee are received under protest, or on account of the employee's failure to indicate a protest against the amount, or that the amount so paid does not constitute payment in full of wages or benefits due the employee for the period covered by such payment.

c. An action pursuant to this section must be commenced within three years of the date of the alleged violation, or within three years of the final disposition of any administrative complaint or action concerning the alleged violation or, if such a disposition is reviewed in a proceeding pursuant to article seventy-eight of the New York state civil practice law and rules, within three years of the termination of such review proceedings. No procedure or remedy set forth in this law is intended to be exclusive or a prerequisite for asserting a claim for relief to enforce any rights hereunder in a court of law. This law shall not be construed to limit an employee's right to bring a common law cause of action for wrongful termination.

d. This section shall not be construed to authorize an action against the county or any of its officers or employees relating to either the enforcement or implementation of this title.

§ 9. Waiver

a. Any county contractor may request a waiver of the requirements of this law by submitting an application therefor to the county executive, or his or her designee, who shall establish such rules, regulations, procedures and forms as he or she may deem necessary to carry

out the provisions of this section, as well as the eligibility criteria for such waiver, which shall include, but not be limited to the following:

(i) The highest paid officer or employee of such contractor earns a salary and/or receives fringe benefits that the Comptroller, in its discretion, may determine a method for valuing such benefits, including but not limited to dividends, a car and health insurance which cumulatively, when calculated on an hourly basis, is less than six times the lowest wage or salary paid by the contractor; or

(ii) Compliance with the requirements of this law will directly increase a contractor's expected total annual budget in an amount greater than ten percent of the prior fiscal year's budget

b. The name and address of any county contractor that applies for a waiver pursuant to this section shall be listed on the Nassau County web site at least 45 days prior to any decision on the granting of said waiver. Any interested party shall have 15 days from the posting of said contractor to provide written comments on the application and a decision shall issue within 30 days of the closing of the comment period.

§ 10. Other provisions

a. Except where expressly provided otherwise in this law, the requirements of this law shall apply to county service contracts and county leases entered into, and county financial assistance awarded after the effective date of this law, and shall not apply to any existing county service contract or county lease entered into or county financial assistance awarded prior to that date. Where a county service contract, a county lease or county financial assistance is renewed or extended after the effective date of this law, such renewal or extension shall be deemed a new county service contract, a new county lease, or new county financial assistance, as the case may be, subject to the requirements of this law, as applicable.

b. Nothing in this law shall be construed as prohibiting or conflicting with any other obligation or law, including any collective bargaining agreement that mandates the provision of higher or superior wages, benefits, or protections to covered employees, unless the requirements in subsection c of this section are fulfilled. No requirement or provision of this law shall be construed as applying to any person or circumstance where such coverage would be preempted by federal or state law. However, in such circumstances, only those specific applications or provisions of this law for which coverage would be pre-empted shall be construed as not applying.

c. The requirements of this law may be waived by the written terms of a bona fide collective bargaining agreement, provided that this local law is expressly referenced in the agreement, and that the agreement sets forth in clear and unambiguous terms the desire of all parties to waive some or all of the requirements of this local law. Unilateral implementation of terms and conditions of employment by either party to a collective bargaining relationship shall not constitute a waiver of any of the requirements of this Section.

d. Not-for-profit corporations shall be eligible for financial assistance from the Nassau County Living Wage Contingency Fund, or any successor fund thereto, upon funding availability, in order to meet increased payroll expenses incurred due the operation of this law, upon filing a request for such assistance with the county executive or his or her designee, who shall establish such rules, regulations, procedures and forms as he or she may deem necessary to carry out the provisions of this subdivision.

§ 11. Retaliation and Discrimination Barred

It shall be unlawful for any employer to retaliate, discharge, demote, suspend, take adverse employment action in the terms and conditions of employment or otherwise discriminate against any employee for reporting or asserting a violation of this law, for seeking or communicating information regarding rights conferred by this law, for exercising any other rights protected under this law, or for participating in any investigatory or court proceeding relating to this law. This protection shall also apply to any employee or his or her representative who in good faith alleges a violation of this law, or who seeks or communicates information regarding rights conferred by this law in circumstances where he or she in good faith believes this law applies. Taking adverse employment action against a covered employee(s) or his or her representative within sixty days of the covered employee engaging in any of the aforementioned activities shall raise a rebuttable presumption of having done so in retaliation for those activities. Any covered employee subjected to any action that violates this subsection may pursue administrative remedies or bring a civil action pursuant to section 5 of this law in a court of competent jurisdiction.

§ 12. Protection against displacement of building services workers

a. It is the purpose of this provision to ensure continuity in living wage employment for building services employees and minimize disruption when building services that were previously performed by employees of an entity subject to the provisions of this title are continued by a new entity.

b. In the event that an employer that provides building services sells, transfers, assigns, or otherwise conveys its interest in county real property, the county shall require any subsequent employer assuming such interest to retain and employ such building service employees as were employed by the original county contractor.

§ 13. Severability

If any clause, sentence, paragraph, subdivision, section or part of this local law or the application thereof to any person, individual, corporation, firm, partnership, entity or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, effect or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this law or in its application to the person, individual, corporation, firm, partnership, entity or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§ 14. Effective date. This local law shall take effect January 1, 2007.

(Added by Local Law No. 1-2006, passed by the Legislature on Dec. 19, 2005 and signed by the County Executive on January 16, 2006; section 2, subdivisions a and c of section 3, section 5, subdivision b of section 6, and subdivision a of section 7 amended by Local Law No. 19-2006; sections 2,3,7,9 and 10 amended by local law 1-2010 passed by the Legislature on December 21, 2009 and signed by the County Executive on January 21, 2010)

TITLE 58

NASSAU COUNTY BB GUN LAW

Section 1. Short title

This law shall be known as the Nassau County BB Gun Law, which shall appear in the miscellaneous laws as title 58.

Section 2. Legislative Intent

This Legislature finds that air guns, including but not limited to, BB guns and pellet guns, threaten the health, safety and well-being of the residents of Nassau County when they are obtained and used by minors. These guns can kill a person. High velocity guns can increase the risk. The U.S. Consumer Product Safety Commission (“CPSC”) has reports of approximately four deaths per year caused by BB guns or pellet rifles. Studies have shown that , at close range, BBs and pellets fired from these air powered guns can cause tissue damage and potentially severe penetrating injuries especially those to the abdomen, chest, eye and head of children. Recently, two Long Island youngsters were hospitalized after being shot, in the eye and abdomen respectively, by BB gun pellets wielded by minors. There has also been a series of recent incidents in the County involving multiple car windows being shot out with BB guns. There are no federal laws regulating the transfer, possession or use of air guns. This title protects the public safety by establishing safeguards to control the sale of these products to individuals under the age of eighteen. This legislature finds that by controlling the sale of these products to such individuals, severe or lethal injuries can be significantly reduced.

Section 3. Definitions

As used in this title:

a. “Person” shall mean a person, firm, company, corporation, partnership, sole proprietor, limited partnership, limited liability partnership, limited liability corporation or association.

b. “Air guns” shall mean any air rifle, air pistol, spring gun, spring pistol, B-B gun, paint ball gun, pellet gun or any implement, instrument or weapon that is not a firearm, which propels ammunition in the form of a pellet constructed of hard steel, lead, plastic, elastic containing paint or ceramic or other hard materials with a force that is reasonably expected to cause bodily harm.

Section 4. Sale of air guns to individuals under the age of eighteen (18) prohibited.

a. It shall be unlawful for any person, whose business includes the sale of air guns, to sell or offer to sell give and /or provide, or cause another person to sell, offer to sell, give and/or provide an air gun or ammunition therefore to any individual under the age of eighteen (18) in the County of Nassau.

b. Any person operating a place of business where air guns are sold or offered for sale shall post in a conspicuous place the following statement: “SALE OF AIR GUNS OR AMMUNITION THEREFOR TO INDIVIDUALS UNDER THE AGE OF EIGHTEEN (18) IS PROHIBITED BY LAW”

c. Any person who sells or offers air guns for sale, shall place such air guns and ammunition therefore on display only if such items are; (i) contained in a sealed and locked case; (ii) located behind the service counter with access limited to the seller or his agents or employees; or, (iii) stored in any other manner which restricts access to air guns by customers and/or the general public.

Section 5. Penalties

a. Any person who violates any provision of this title shall, for a first offense, be guilty of a violation punishable by a fine of not more than two hundred fifty dollars. A second or subsequent violation shall be a Class B misdemeanor punishable by a fine of not more than five hundred dollars or three months imprisonment, or both.

Section 6. Severability

If any clause, sentence, paragraph of subdivision or part of this Article or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance, shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, or part of this Article, or in its application to the person, individual, corporation, firm, partnership, entity or circumstance directly involved in the controversy in which such judgment shall be rendered.

c. Effective date.

This local law shall take effect 120 days after it shall have become a law.

(Added by Local Law 6-2006, signed by the County Executive on May 4, 2006.)

TITLE 59*

NASSAU COUNTY POET LAUREATE LAW

Section 1. This law shall be known as the Nassau County Poet Laureate Law, which shall appear in the miscellaneous laws as Title 59.

Section 2. Legislative Intent

This Legislature finds that the culture and the sense of peace that poetry can bring to the very hectic lives led by the residents of this county are an important element of the well being and enrichment of our lives. Poetry is literary expression in which language is used in a concentrated blend of sound and imagery to create an emotional response. It is as old as the chants first sung around the tribal fires of primitive peoples. The chant/song/poem is what heals the heart and soul. Poetry celebrates the individual word, the sound of language and the rhythm of language.

Section 3.

The Nassau County Legislature shall biennially designate a poet laureate for Nassau County, to be honored at the first meeting in April of every two years, and who shall be known as the Nassau County Poet Laureate for the period of April 1st through March 30th of the

second year following to be selected from a panel to be named by the legislature consisting of the following individuals:

- a. a Nassau County educator who teaches poetry selected by the Nassau County Council of School Superintendents;
- b. an active member of the poetry community named by the County Executive's office;
- c. an active member of the poetry community named by the Presiding Officer of the Nassau County Legislature;
- d. an active member of the poetry community named by the Minority Leader of the Nassau County Legislature;

- e. the Vice President of Academic Affairs of the Nassau County Community College, or his or her designee; and
- f. a member of the Nassau County Library Association designated by said Library Association.

Section 4.

The Nassau County Poet Laureate Panel shall, no later than March 1 of the year the poet laureate is to be designated, issue a written report to the Chairperson of the Government Services Committee and to the Clerk of the Nassau County Legislature, identifying the individual chosen by the panel as the poet laureate, and shall include in said report the criteria used in the selection process.

Section 5. The poet laureate shall promote and encourage poetry within the county and shall give two public readings within the county each year.

Section 6. This law shall take effect 60 days after the date it is signed.

(Added by Local Law 7-2006, signed by the County Executive on May 4, 2006.)

*Note there is an additional title 59 added by Local Law no. 10-2006

TITLE 59*

ENVIRONMENTAL PROGRAM

Section 1. This law shall appear in the miscellaneous laws as title 59.

§ 2. Legislative Intent.

The legislature finds that there continues to be a compelling and urgent need to preserve the County's remaining open space, to provide adequate and diverse kinds of parklands and park facilities for County residents for both active and passive recreation, to protect the County's precious water resources whether above or underground, such as aquifers, recharge areas, ponds, streams, estuaries and other bodies of water, and to provide for the cleanup of brownfields within the County.

Development pressure is threatening open space in the County. The County Legislature finds that the preservation of open space is essential to protect the quality of life of County residents, provide a buffer against sprawl, maintain groundwater recharge areas to ensure the quality and quantity of future drinking water supplies, protect natural habitat and sensitive environmental areas, and provide access for residents to woodlands, coastal waterfronts, trails and other natural areas.

The County Legislature finds, further that many parks, recreational and historic facilities within the County are in need of renovation, restoration, and capital improvement, and that it is a county purpose to improve the quality of County parks in order to provide increased recreational opportunities, enhance property values and improve the quality of life for County residents.

Storm water runoff pollution is a threat to the quality of water resources of the County's north and south shores. This condition has been documented by the south shore estuary comprehensive management plan and the comprehensive conservation and management plan for Long Island Sound, which found that non-point source pollution is the primary water quality concern in the south shore estuary reserve and Long Island Sound and its estuaries. In addition, the County is required by the Clean Water Act to develop a strategy for mitigating storm water

runoff pollution. This Legislature declares that funding necessary storm water projects, which may include pond rehabilitation and/or dredging projects, and assisting the county in preparing for the new federal regulatory requirements are County purposes and, in addition, constitute purposes contemplated by the New York State and County legislatures when they created the county sewer and storm water resources district in two thousand three.

Surface and coastal waters are also a vital element of the County's quality of life, its environmental resources, and appeal to residents and tourists. This Legislature finds that both the quantity and quality of the County's water resources are threatened by increased usage and contamination as a result of past and foreseeable future development, so that the protection of the County's water resources is a county purpose necessary for the wellbeing of residents, the health of the environment, and the vitality of the economy.

Pollution and toxic waste have despoiled many parcels of land in the County and made them unfit for development and other use. This Legislature finds that it is the role of municipalities to fund, where practicable, the clean up of the brownfield areas.

This Legislature finds therefore, that it continues to be necessary to fund a rational and fiscally prudent program to further the purposes of preserving open space; acquiring and improving parks, athletic fields and other recreational facilities; restoring and improving park, recreational, and historic assets; mitigating storm water runoff pollution; protecting and improving the County's water resources, including any projects to accomplish such goal and the goal of mitigation of storm water runoff pollution, and remediating brownfields. In connection with each of the above purposes, the County should, to the extent practicable, partner with any other municipality within the County, and the state and federal governments.

The taxes assessed pursuant to this section shall appear as a separate item on the tax bill submitted to property owners. Moneys raised through the tax levies authorized by this subdivision shall be placed in the special revenue

fund and shall be used only for payment of such debt service. The County may, in its discretion, and as legally permissible, deposit other revenues into such fund; provided, however, that such other revenues shall not be subject to the limitation contained in this subdivision.

(i) All real property purchased in fee under the environmental program pursuant to this subdivision may be limited by deed restriction to future use for only park, recreation, agricultural or open space purposes and may be dedicated as perpetual preservation lands under county law.

(ii) Parcels of land from which development rights or other interests are acquired may remain preserved in perpetuity via a permanent conservation easement or other means that similarly preserves the open space, ecological, water recharge, or scenic value of the parcel, or the agricultural character of the parcel of land.

(iii) The County may enter into agreements with other municipalities within the county, the state, or other entities, as permitted by law, to purchase development rights, conservation easements or other rights or interests in land for the purposes set forth in this law; provided, however, that the county contribution shall not exceed fifty percent of the total cost of such purchases.

b. Parks expansion and improvement. A portion of the net proceeds from the environmental program bond issue shall be expended for park expansion and improvement, as follows:

(i) Acquisition and improvement of active parkland. A portion of the net proceeds from the environmental program bond issue shall be expended for the acquisition or improvement of land for use as active parklands, except golf courses. In addition to such acquisition or improvement by the County, for purposes of this subparagraph, such acquisition or improvement may also be accomplished through written agreements with municipalities within the County or with a duly incorporated or organized not-for-profit entities to improve the properties for additional space for playgrounds, athletic fields, outdoor concerts, horseback riding or other equine activities, or other community recreational needs; provided, however, that all such agreements shall provide for continued public access to such property; at a minimum allowing free access to all County residents as spectators at sporting events, and providing in lease agreements a mechanism for County residents to maintain reasonable access to facilities when such facilities are not in active use by the contracting municipality or organization. The County may enter into agreements with municipalities within the County to acquire or improve parcels of land pursuant to this subparagraph, or may make grants to such municipalities; provided, however, that the county contribution cannot exceed fifty percent of the total cost of such acquisition or improvement.

(ii) Park renovation and improvement. A portion of the net proceeds from the environmental program bond issue shall be expended for improvements to county park, recreational, museum and historical facilities, and construction of facilities, amenities and other capital improvements to such park, recreational, museum and historical facilities; provided, however, that no moneys from the environmental bond issue shall be expended for the replacement, repair or maintenance of existing park structures or facilities.

c. Clean water projects. A portion of the net proceeds from the environmental program bond issue shall be expended for capital projects of the district that will contain, abate or mitigate storm water carried pollutants that otherwise would impair the quality of the County's north and south shore estuaries. Projects may include, but shall not be limited to, sediment collection basins, storm drain catch basins, drainage swales, and end-of-pipe treatment units, such as swirl-type collectors, and water body rehabilitation, dredging and improvement projects.

The County Executive may introduce the proposal for consideration by the legislature, along with the findings of the Planning Commission and OSPAC; provided, however, that failure by either the Planning Commission or OSPAC to provide such report and recommendations within the time period set forth in this section, shall be deemed to constitute neutral findings and the County Executive may proceed for consideration by the Legislature.

d. Each such proposal and each corresponding bond ordinance shall be subject to the approval of thirteen members of the County Legislature.

§ 8. Annual report. No later than the first day of September of each year in which there are existing funds raised through such bond issue, the County Executive shall report to the County Legislature in writing, detailing the expenditures of such funds, the balance of funds remaining, and the balance of authorized expenditures during the prior year and recommendations for future years.

TITLE 61

MARK SATTLER LAW RESTRICTING THE USE OF MOTORIZED SCOOTERS, ALL-TERRAIN VEHICLES, AND OTHER OFF-ROAD VEHICLES AND REQUIRING TRUTH-IN SELLING

Section 1. Short title.

This law shall be known as the Mark Sattler Law, which shall appear in the miscellaneous laws as title sixty-one.

Section 2. Legislative Intent.

This Legislature finds that the operation in the County of all-terrain vehicles (“ATVs”), motorized scooters, and other off-highway vehicles poses an unacceptable risk of serious injury and death for County residents and causes economic and environmental damage to public parks, sports facilities, recreation areas, natural habitats and nature preserves. It is the intent of this law to protect the health, safety and welfare of County residents by imposing stricter limits on the use and operation of such vehicles.

This Legislature further finds that consumers frequently are unaware of the legal restrictions on the use and operation of such vehicles when they purchase them, and they may first learn of the rules governing the operation of these vehicles only after encountering efforts by law enforcement to enforce such laws. This law, therefore, requires that consumers be notified at the time of purchase of the laws and regulations restricting the use and operation of ATVs, motorized scooters, and other off-highway vehicles.

Any subsequent violation occurring within five years of the date of such first violation shall be punishable by a fine of not less than two hundred fifty dollars nor more than seven hundred fifty dollars.

§ 6. Applicability. The provisions of this law shall not apply to property owned by or under the jurisdiction of other municipal authorities, the State of New York and any agency thereof, or the government of the United States of America.

§ 7. Effective date. This local law shall become effective immediately after it shall have become a law; provided, however, that no appearance ticket shall be issued pursuant to section five of this local law until one year from such effective date.

§ 8. SEQRA determination. It is hereby determined pursuant to the provisions of SEQRA, Part 617 of 6 N.Y.C.R.R. and Section 1611 of the County Government Law of Nassau County that this legislative action is “Unlisted”; and further, that upon review of the Environmental Assessment Form (“EAF”) for the action, the recommendation of negative declaration from the Nassau County Planning Commission acting in an advisory capacity to the Nassau County Legislature, and supporting documentation, such action is determined not to have a significant effect on the environment and does not require further environmental review. A record of such determination shall be maintained in a file, readily accessible to the public, at the office of the Clerk of the Legislature.

TITLE 64 SOCIAL HOST LAW

Section 1. Short title. This law shall be known as the Social Host Law and shall appear in the miscellaneous laws as title sixty-four.

§2. Legislative intent. This legislature finds that underage drinking is a significant societal problem that has generated widespread concern in Nassau County. Although the New York state legislature has acted to proscribe the unlawful giving, selling and possessing of alcohol in relation to minors, it has not regulated the situation where a person over the age of eighteen knowingly permits the consumption of alcohol by a minor in his or her home. The underage consumption of alcohol, whether at a party or a smaller gathering, poses an immediate threat to the public health, safety and welfare of the residents of Nassau County, often leading to alcohol abuse by minors, physical altercations, accidental injuries, neighborhood vandalism, excessive noise disturbances requiring the intervention of local law enforcement and the commission of violent crimes including sexual offenses and serious assaults. This local law will serve to deter the consumption of alcoholic beverages by minors by holding those over the age of eighteen responsible when they permit the consumption of alcoholic beverages by minors at their residences.

§3. Definitions. For purposes of this local law the following terms shall be defined as follows:

- a. "Alcohol" shall mean ethyl alcohol, hydrated oxide of ethyl or spirits of wine, from whatever source or by whatever means produced.
- b. "Alcoholic beverage" shall mean any liquor, wine, beer, spirits, cider or other liquid, or solid, patented or not, composed of, or containing, alcohol or spirits, whether or not brewed, fermented or distilled, and capable of being consumed by a person, except that confectionary containing alcohol as provided by subdivision twelve of section two hundred of the New York State Agriculture and Markets Law shall not be regarded as an alcoholic beverage within the meaning of this section.
- c. "Knowingly" shall mean aware of, or having reason to be aware of, the consumption of alcohol by a minor.
- d. "Minor" shall mean any person under the age of twenty-one.
- e. "Residence" shall mean any home, apartment, condominium, co-operative unit or other dwelling unit of any kind, including yards and open areas adjacent thereto.

§4. Unlawful consumption of alcohol by minor at a residence.

- a. It shall be unlawful for any person over the age of eighteen who owns, rents, or otherwise controls a private residence, to knowingly allow the consumption of alcohol or alcoholic beverages by any minor on such premises or to fail to take reasonable corrective action upon learning of the consumption of alcohol or alcoholic beverages by any minor on such premises. Reasonable corrective action shall include, but not be limited to: 1) making a prompt demand that such minor either forfeit and refrain from further consumption of the alcoholic beverages or depart from the premises; and 2) if such minor does not comply with such request, either promptly reporting such underage consumption of alcohol i) to the local law enforcement agency or ii) to any other person having a greater degree of authority over the conduct of such minor.
- b. The provisions of this subdivision a of this section shall not apply to: i) the consumption of alcohol or alcoholic beverages by a minor whose parent or guardian is present and has expressly permitted such consumption; or ii) the use and consumption of alcohol or alcoholic beverages by a minor for religious purposes.

§5. Penalties. A violation of section four of this local law shall constitute an unclassified misdemeanor. Each first offense, and subsequent offense, shall be punished as follows:

a. First offense. Any person who violates section 4 of this Local Law shall be punished by a fine of two hundred and fifty dollars, where such violation constitutes the person's first offense in violation of this provision.

b. Second offense. Any person who violates section 4 of this Local Law shall be punished by a fine of five hundred dollars, where such violation constitutes the person's second offense in violation of this provision.

c. Third and subsequent offenses. Any person who violates section 4 of this Local Law shall be punished by either a fine of one thousand dollars, a term of imprisonment not to exceed one year, or both a fine of one thousand dollars and a term of imprisonment not to exceed one year.

§6. Effect on other laws. The provisions of section four of this local law shall not in any way affect the application of any other law, where appropriate, including but not limited to New York Penal Law section 260.10 (endangering the welfare of a minor) and section 260.20(2) (unlawfully dealing with a child).

§7. Severability. If any clause, sentence, paragraph, or section of this local law shall be held invalid by any court of competent jurisdiction, or the application of this local law to any person or set of circumstances shall be held invalid, such invalidity or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, or operation of this local law directly involved in the controversy in which the judgment shall have been rendered. To further this end, the provisions of this local law are hereby declared to be severable.

§8. Effective date. This local law shall take effect immediately after it shall have become a law.

(Title 64 added by local law 13-2007, signed into law on July 17, 2007)

TITLE 65 ALEC'S LAW

Section 1. Short title

This law shall be known as Alec's Law and shall appear in the miscellaneous laws as title sixty-five.

§2. Legislative findings and intent

This legislature finds that at least four hundred seventy-five children were killed in the United States between the years two thousand two and two thousand six when vehicles backed over them, as reported by KIDS AND CARS, a not-for-profit group that documents non-traffic incidents involving children. Among the many children on Long Island badly injured and/or killed by vehicles backing into them were Alec Nelson and Cameron Gulbransen, two toddlers who were killed in their own driveways because of poor rearward visibility. A recently passed federal bill calls for the National Highway Traffic Safety Administration to document non-traffic related incidents such as back-overs and to study devices designed to prevent vehicles from accidentally backing over children. Until such time as a rear visibility performance standard is set by the federal government, the County of Nassau can take measures to help protect Nassau's children by disseminating information concerning the dangers.

§3. Requirements

a. The Nassau County Traffic Safety Board shall establish and maintain a web page promoting child safety and accident prevention for vehicle owners. Such web page shall include but not be limited to current information and statistical data relative to the prevention of non-traffic related incidents such as back-overs; rearward visibility performance standards; information concerning drivers' visibility in "blind zones"; general vehicle safety; and, a list of the names and addresses of all businesses authorized to sell new and used vehicles in Nassau County, which shall be updated at least once every twelve months. Such web page link shall be contained on the Nassau County Executive's Homepage and shall be available through the Nassau County Office of Consumer Affairs and the Nassau County Traffic and Parking Violations Agency web pages.

b. The Nassau County Traffic Safety Board shall distribute to all new and used car dealers in the County of Nassau information relative to promoting child safety and accident prevention for vehicle owners, including but not limited to brochures and/or pamphlets concerning vehicle non-traffic incident prevention pamphlets which focus on vehicle safety and children and shall direct the dealers to distribute them to purchasers and/or customers who lease vehicles.

§4. Nothing in this title shall be deemed to impose any civil or criminal liability upon or to give rise to a cause of action against any official, employee or agency of Nassau County for failing to disseminate information as provided in this title.

§5. Effective date

This local law shall take effect ninety days after it shall have become a law.

(Title 65 added by local law 14-2007, signed into law on July 17,2007.)

TITLE 66 GREEN BUILDING STANDARDS LAW

Section 1. Short Title.

This law shall be known and may be cited as the “Green Building Standards Law” and shall appear in the miscellaneous laws as Title 66.

§2. Legislative Intent.

The Legislature hereby finds it important to ensure that, to the greatest extent practicable, new construction and development are planned, designed, and managed to minimize adverse environmental impacts. The use of sustainable design practices will significantly reduce operations and maintenance costs, while decreasing the negative impacts of new construction and development on the environment. The United States Green Building Council has emerged as the leading standard for sustainable planning, design and management of the nation’s greenest buildings, through the Leadership in Energy and Environmental Design (LEED) green building system. It is the intent of this legislature to apply this system to new development, construction, rehabilitation and maintenance undertaken by the County, to promote better environmental standards for the construction, rehabilitation, and maintenance of buildings in the state; improve energy efficiency and increase generation of energy through renewable and clean energy technologies; increase the demand for environmentally preferable building materials, finishes, and furnishings; improve the environment by decreasing the discharge of pollutants from buildings; create industry and public awareness of new technologies that can improve the quality of life for building occupants; and improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality.

§ 3. Definitions.

As used in this local law:

“Capital project” means a construction project which the county funds at least thirty three and one third percent of the costs of construction from the county capital fund.

“County” means Nassau County and its agencies of government.

“Construction work” means any work or operations necessary or incidental to the erection, demolition, assembling, alteration, installing, or equipping of any building.

“Green building standards” means design guidelines, a rating system or rules for constructing buildings that ensure site planning, water efficiency, energy efficiency and renewable energy, conservation of materials and resources and indoor environmental quality.

“Inflation” means the annual twelve month average of the consumer price index (CPI) published by the United States Department of Labor.

"LEED green building rating system" means an approved version of the Leadership in Energy and Environmental Design (LEED) building rating system published by the United States Green Building Council, including a standard developed by or for the County consisting of practices and technologies derived from the LEED rating system that are reasonable and appropriate for building in Nassau County.

“Life-cycle cost” means the cost of a building, as determined by the methodology identified in the National Institute of Standards and Technology’s special publication 544 and interagency report 80-2040, available as set forth in the Code of Federal Regulations, Title 15, Part 230, including the initial cost of its construction or renovation, the marginal cost of future energy capacity, the cost of the energy consumed by the facility over its expected useful life or, in the case of a leased building, over the remaining term of the lease, and the cost of operating and maintaining the facility as such cost affects energy consumption.

“Rehabilitation” shall mean any restoration, replacement or repair of any materials, systems and/or components.

“Selected green building rating system” means the most current and most appropriate building rating system published by the United States Green Building Council; provided, however, at the County executive’s discretion, the term “selected green building rating system” shall mean New Commercial Construction and Major Renovation Project (LEED NC), Existing Buildings (LEED EB), Commercial Interiors (LEED CI), Core and Shell (LEED CS) or other appropriate approved LEED Standard.

“Silver rating” means the rating in compliance with, or exceeding, the third highest rating awarded by the USGBC LEED certification process.

“Substantial reconstruction” means a capital project in which the scope of work includes rehabilitation work in at least two of the three major systems, electrical, HVAC (heating, ventilating and air conditioning) and plumbing, of a building and construction work affects at least fifty percent of the building’s floor area.

§ 4. Green building requirements.

- a. Any capital project involving greater than five thousand square feet and with an estimated construction cost of one million dollars or more involving the
 - (i) the construction of any new building, (ii) any addition to any existing building, or (iii) the substantial reconstruction of any existing building shall be designed and constructed in a manner that shall comply with green building standards not less stringent than the standards prescribed for buildings designed in accordance with the LEED green building rating system to achieve a LEED silver or higher rating as relates to energy efficiency, water efficiency, material and resources, energy and atmosphere and/ or indoor environmental quality.
- b. Any capital project involving the installation or replacement or rehabilitation of any HVAC system or lighting system in any building at an estimated construction cost of one million dollars or more, or involving the installation or replacement or rehabilitation of plumbing systems in any building at an estimated construction cost for of five hundred thousand dollars or more must comply with the USGBC LEED Green Building Rating System to the maximum extent practicable such that the cost of compliance does not exceed the building’s life-cycle cost savings.

§5.Green building standards

The County Executive may use green building standards other than the LEED green building rating system, provided, however, that he or she publishes findings demonstrating that such other green building standards are not less stringent than the standards prescribed for buildings designed in accordance with the LEED green building rating system. Any standards other than the LEEDS standards shall be reviewed and updated no less often than once every three years.

§6. Exemptions.

- a. The County Executive may grant an exemption from the requirements of this local law:
 - i. To capital projects accounting for up to five percent of the capital dollars budgeted in each fiscal year. In determining whether an exemption shall be granted the factors to be considered by the County Executive should include, but not be limited to the following: the nature and cost of the project; the overall financial resources involved in the project; the number of persons

employed at the site; the effect on expenses and resources, or the impact otherwise upon the operation of the site; the overall size of the site with respect to the number of its employees; and the type of operation or operations conducted at the site, including the composition, structure, and functions of the workforce at such site.

 - v. To capital projects for which the project's purpose is historic preservation of historic and/or cultural places or property as such terms are defined in Section 119-bb of the General Municipal Law.
 - vi. To capital projects undertaken in the case of a public emergency arising out of an accident or other unforeseen circumstances affecting public buildings, public property or the life, health, safety or property of the County of Nassau.
- b. Any project that is granted an exemption under this section must comply with the USGBC LEED Green Building Rating System to the maximum extent practicable.

Such report shall include, but shall not be limited to, a list of any capital project subject to section four of this local law, completed during the preceding calendar year; the estimated level of LEED certification such capital projects have achieved as determined by the design agency in accordance with the LEED rating system or, if applicable, the level achieved, as certified by the United States Green Building Council; additional costs attributable to complying with the LEED green building rating system or any other green building standard; an assessment of the health, environmental and energy-related benefits achieved in comparison with a base-case code compliant project (including projected energy savings and reductions in peak load, reductions in emissions, reductions in storm water runoff and potable water use); and a list and description of, and the total value of, the capital allocations in each fiscal year, by the county, of projects subject to, and exempted by the major from, each of subdivisions this local law. The first such report shall be completed on or prior to September 1, 2008.

§10. Effective Date.

This local law shall take effect on January 1, 2008 and shall apply to all projects added to the capital plan subsequent to that date, except that prior to such effective date the County Executive shall take all actions necessary for the timely implementation of this local law, including the promulgation of rules, and shall take all practicable steps to implement this local law immediately.

§11. SEQRA determination. It is hereby determined pursuant to the provisions of SEQRA, Part 617 of 6 N.Y.C.R.R. and Section 1611 of the County Government Law of Nassau County that this legislative action is “Unlisted”; and further, that upon review of the Environmental Assessment Form (“EAF”) for the action, the recommendation of negative declaration from the Nassau County Planning Commission acting in an advisory capacity to the Nassau County Legislature, and supporting documentation, such action is determined not to have a significant effect on the environment and does not require further environmental review. TITLE 67 DXM LAW

Section 1. Short Title.

This law shall be known and may be cited as the “DXM Law” and shall appear in the miscellaneous laws as Title 67.

§ 2. Legislative Intent.

This Legislature finds that non-prescription cough and cold medicine containing Dextromethorphan, also known as DXM, is increasingly being used by adolescents in a manner inconsistent with its labeling, often as a recreational drug, to induce intoxication when taken in large doses. Such abuse may cause serious medical injuries, including seizures, psychosis, hallucinations, brain damage, irregular heartbeat, respiratory distress, coma, and even death. This law seeks to prevent abuse of DXM by prohibiting the sale to minors of cough and cold medicines that contain that substance.

§3. Definitions. Unless otherwise expressly stated in this local law, the following terms shall have the following meanings:

“Commissioner” shall mean the commissioner of the Nassau County Police Department.

“Dextromethorphan,” or “DXM,” shall mean dextrorotatory isomer of methoxy-n-methylmorphinan and its salts.

§ 4. Prohibition. No retail distributor located within the County of Nassau shall knowingly sell or offer to sell any over-the-counter cold medicine or cough suppressant that contains Dextromethorphan to any minor, or knowingly sell or offer for sale any cold medicine or cough suppressant that contains Dextromethorphan to any minor making the purchase from within the

County of Nassau.

§ 5. Penalties. Each first offense and subsequent offenses shall be punished as follows:

a. First offense. Any retail distributor who violates section four of this Local Law shall be punished by a fine of not more than two hundred and fifty dollars, where such violation constitutes the person's first offense in violation of this provision.

b. Second offense. Any retail distributor who violates section four of this Local Law shall be punished by a fine of not more than five hundred dollars, where such violation constitutes the person's second offense in violation of this provision within thirty-six months.

c. Third and subsequent offenses. Any retail distributor who violates section four of this Local Law shall be punished by a fine of not more than one thousand dollars, where such violation constitutes the person's third or subsequent offense in violation of this provision within thirty-six months.

§ 6. Rules. The commissioner shall promulgate such rules as are necessary to effectuate the provisions of this title.

§ 7. Severability. If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§ 8. Effective date. This local law shall become effective one hundred twenty days after it becomes law.

(Title 67 added by local law 20-2007)

Section 1. Short title. This local law shall be known as the "Plastic Bag Reduction and Recycling Law" and shall appear in the Miscellaneous Laws as title 68.

§ 2. Legislative intent. The Legislature finds the widespread provision of plastic carryout bags to consumers creates significant problems relating to their disposal and effect on the environment. Plastic carryout bags litter the County's beaches and streets, clog sewer systems, and may be lethal to marine animals that ingest or become entangled in them in the County's coastal waters. It is the intent of the Legislature to encourage the use of reusable bags and the recycling of plastic carryout bags by consumers and retailers in order to minimize the impact of plastic bags on the health and environment of the County.

2. A bin for the collection of plastic carryout bags and other film plastic shall be placed in

a visible location that is easily accessible to the consumer, and clearly marked as available for the purpose of collecting plastic carryout bags and other film plastic for recycling; and

3. All plastic carryout bags and other film plastic returned to a store shall be collected, transported and recycled in a manner consistent with all applicable laws.

This Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this action is an unlisted action under the provisions of Title 6 NYCRR Part 617, and that based on an evaluation of the environmental criteria set forth in §617.7(c) that are considered to be indicia of significant adverse environmental impacts, along with the recommendation of the Nassau County Planning Commission acting in its advisory capacity to the legislature, that such action will not have significant adverse impacts on the environment, and that no additional environmental review or action is necessary.

§7. Effective date. This law shall take effect six months after it shall have become a law.

TITLE 69
DECEPTIVELY COLORED HANDGUN LAW

Section 1. Short Title.

This law shall be known and may be cited as the “Deceptively Colored Handgun Law” and shall appear in the miscellaneous laws as Title 69.

§ 2. Legislative Intent.

The Legislature of Nassau County hereby finds that deceptively colored handguns pose a danger to law enforcement personnel and the general public. These real guns, when painted with non-traditional handgun colors, resemble toy guns, and can confuse police officers and the general public. Law enforcement officers who sometimes must make split second decisions on the use of force could perceive a deceptively colored real handgun to be a toy and be seriously injured or killed. A child may mistakenly attempt to play with a brightly colored real handgun and seriously injure themselves or others. As such, the legislature declares that the purpose of this local law is to safeguard the public from the unreasonable risk of death and injury that may result when real handguns are mistaken for toys by banning the distribution and possession in Nassau County of deceptively colored handguns.

§ 3. Definitions.

a) The term handgun shall include:

- (1) any weapon or device from which a shot can be discharged through the energy of an explosive and which may be fired by the use of a single hand; and
- (2) any combination of parts from which a weapon or device described in paragraph (1) of this subdivision can be assembled.

b) The term “deceptively colored handgun” shall include any handgun which has a substantial portion of its exterior surface colored any color other than black, brown, grey, silver, steel, nickel or army green. A substantial portion of the exterior surface of a handgun shall be considered to be colored any color other than black, brown, grey, silver, steel, nickel, or army green if such other color is used either alone or as the predominant color in combination with other colors in any pattern; provided, however, that a handgun shall not be deemed to be a deceptively colored handgun merely because (1) a substantial portion of its exterior surface is plated with gold; or (2) a substantial portion of its exterior surface is a shade of blue resulting from the process of “bluing,” designed to provide limited resistance to rust and corrosion; or (3) its handle is composed of ivory, colored so as to appear to be composed of ivory, composed of wood, or colored so as to appear to be composed of wood.

c) The term “substantial portion of the exterior surface of a handgun” shall mean: (1) at least twenty five percent of the entire exterior surface area of a handgun; or (2) the exterior surface of either the receiver or the slide of a handgun.

d) The term "deceptive coloring product" shall mean and include any equipment, product, or material that is designed for use in modifying any handgun so as to make it a deceptively colored handgun. Any equipment, product, or material that is held out, offered for sale, or otherwise disposed of based on its utility, alone or in combination with other equipment, products, or materials, in modifying any handgun so as to make it a deceptively colored handgun shall be deemed a deceptive coloring product. Any combination of equipment, products, or materials that are jointly held out, offered for sale, or otherwise disposed of based on their utility, jointly or in combination with other equipment, products, or materials, in modifying any handgun so as to make it a deceptively colored handgun shall be deemed a deceptive coloring product.

§ 4. Violations.

a) It shall be unlawful for any person to dispose of a deceptively colored handgun except as authorized by section 6 of this title. It shall be unlawful for any person to modify, attempt to modify, or offer to modify any handgun so as to make it a deceptively colored handgun except as authorized by section 6 of this title.

b) It shall be unlawful for any person to possess a deceptively colored handgun or a deceptive coloring product except as authorized by section 6 of this title or for any person to attempt to possess a deceptively colored handgun or a deceptive coloring product except as authorized by section 6 of this title.

§ 5. Penalties. Any person who violates any provision of this title or of any regulations issued pursuant to it shall be guilty of a misdemeanor punishable by a fine of not more than one thousand dollars or imprisonment of not more than one year or both.

§ 6. Exceptions.

a) This title shall not prohibit possession of any deceptively colored handgun by any person who possesses it on the effective date of the local law enacting this title, or by any person who acquires it by inheritance or operation of law after the effective date of this title, provided that, within thirty (30) days, such person either (i) surrenders such deceptively colored handgun to the Commissioner of Police for disposal in accordance with the provisions of section 400.05 of the penal law; or (ii) modifies such handgun to be in conformance with this title. This title shall not prohibit the possession of any deceptive coloring product by any person who possesses it on the effective date of the local law enacting this title, or by any person who acquires it through inheritance or by operation of law after the effective date of the local law enacting this title, provided that within thirty (30) days such person surrenders such deceptive coloring product to the Commissioner of Police for disposal.

When a hotel or other establishment operates more than one public eating place, each such place shall be deemed to be a separate public eating place. “Restaurant specials” means special offers of food, meals, desserts and drinks which do not appear on the menu or are not commonly offered by such an establishment.

§ 3. Notice to customers. Every restaurant shall provide written notice of the prices of all restaurant specials offered to its customers. Such notice shall be clearly visible and legible so that it can be easily viewed and understood by customers and provided in any one of the following forms:

§ 4. Penalties

Any restaurant found to be in violation of any provision of this title shall be subject to a civil penalty of up to one hundred dollars for the first violation, and not more than two hundred fifty dollars for the second violation and each violation thereafter, which may be recovered following notice and an opportunity to be heard in a proceeding before the Commissioner.

§ 5. Severability. If any clause, sentence, paragraph, subdivision, section or part of this local law or the application thereof to any person, individual, corporation, firm, partnership, entity or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, effect or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this law or in its application to the person, individual, corporation, firm, partnership, entity or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§6. SEQRA Determination. This legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this action is an unlisted action under the provisions of Title 6 NYCRR Part 617, and that based on an evaluation of the environmental criteria set forth in §617.7(c) that are considered to be indicia of significant adverse environmental impacts, along with the recommendation of the Nassau County Planning Commission acting in its advisory capacity to the legislature, that such action will not have significant adverse impacts on the environment, and that no additional environmental review or action is necessary.

§ 7. Effective date. This local law shall take effect thirty days after it shall have become a law.

(Added by Local Law No 3-2009, signed by the County Executive on January 15, 2009, in effect thirty days after it shall have become a law.)

TITLE 71

TEXT MESSAGING

Section 1. This law shall appear in the miscellaneous laws as Title 71.

§ 2. Legislative Intent.

The legislature finds that the popularity of text messaging has created a new distraction for drivers, especially young drivers, and has led to numerous accidents, many of them fatal, nationwide. Text messaging while driving inevitably decreases driver awareness and safety on the roads, affecting reaction time and attention to the surrounding environment and roadways. In order to protect the health, safety, and well-being of persons within the County of Nassau and to insure that individuals are not distracted while driving, this local law seeks to prohibit text messaging while driving.

§ 3. Definitions.

As used in this title, the following terms shall have the meanings indicated:

“Authorized emergency vehicle” shall mean every ambulance, police vehicle or bicycle, correction vehicle, fire vehicle, civil defense emergency vehicle, emergency ambulance service vehicle and environmental emergency response vehicle.

“Use” or “using” means holding a wireless handset while operating a motor vehicle on any public street or public highway within this county and activating, deactivating or initiating functions or keys on a wireless handset in order to send or receive text messages on a wireless handset.

“Voice recognition” shall mean the capability by which wireless handsets can be activated and controlled by voice commands.

“Wireless handset” shall mean a portable computing device, including cellular telephones, handheld mobile telephones and personal digital assistants capable of transmitting data in the form of an e-mail or text message.

No person shall use a wireless handset to compose or send a text message while operating a motor vehicle on any public street or public highway within the County of Nassau; provided, however, that the operator of an authorized emergency vehicle, when using such wireless handset in furtherance of their sworn duties, shall be exempt from the provisions of this title. This prohibition shall not apply to text messages composed via any voice recognition technology.

§ 5. Enforcement.

This law shall be enforced by the Nassau County Police Department and sworn officers, as defined in Section 1.20(34) of the New York State Criminal Procedure Law, of an authorized Police Department or force of a town or of a village within the geographic boundaries of Nassau County. This law may be enforced anywhere within the geographic boundaries of Nassau County.

§ 6. Penalties. Any violation of section four of this local law shall constitute an offense and be punishable by a fine not to exceed one hundred and fifty dollars for each violation. Each such violation shall constitute a separate and distinct offense.

§ 7. Severability. If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§ 8. Effective date. This local law shall become effective sixty days after it shall have become a law.

(Added by Local Law No 11-2008, signed by the County Executive on October 29, 2008 to become effective sixty days after it shall have become a law.)

TITLE 72*

NASSAU COUNTY FERTILIZER LAW

Section 1. Short title

This law shall be known as the “Nassau County Fertilizer Law” and shall appear in the Miscellaneous Laws as Title 72.

§ 2 Legislative Intent. This legislature finds that the use of fertilizer during the cold weather months results in nitrogen run-off and leaching which leads to contaminated drinking water, storm water, ground water as well as the pollution of waterways, wetlands and estuaries. It is the purpose of this law to reduce the amount of nitrogen released into the environment by prohibiting the application of fertilizer to any real property in the County between November 15th and April 1st every year.

§ 3. Definitions. As used in this law, the following terms shall have the meanings indicated:

“Agricultural commodity” shall mean any plant or part thereof, or animal, or animal product, produced by a person (including farmers, ranchers, vineyardists, plant propagators, Christmas tree growers, aquaculturists, floriculturists, orchardists, foresters or other comparable

persons) primarily for the sale, consumption, propagation or other use by man or animals.

“Commissioner” shall mean the Commissioner of the Nassau County Department of Health.

“Department” shall mean the Nassau County Department of Health.

“Fertilizer” shall mean any organic or inorganic material of natural or synthetic origin which is added to soil and or soil mixtures or solutions to supplement nutrients and is claimed to contain one or more essential plant nutrients. The term "fertilizer" shall not include un-manipulated animal manure, un-manipulated vegetable manure, compost, mulch, compost tea and agricultural liming materials used to reduce soil acidity.

“Person” shall mean any individual, business, firm, partnership, limited liability partnership, corporation, company, limited liability company, society, association, or any organized group of persons whether incorporated or not.

“Turf” shall mean any area of earth principally vegetated by grass, but shall not include areas used for the purpose of producing an agricultural commodity as defined by Environmental Conservation Law Section 33-0101 and this section.

§ 4. Prohibition. No person shall apply fertilizer to any turf on any real property within the County of Nassau between November 15th and April 1st of every year.

§ 5. Penalties. Any person who violates section four of this local law shall be subject to a civil penalty of not greater than two hundred and fifty (\$250) dollars for the first offense, not greater than five hundred (\$500) dollars for the second offense and not greater than one thousand (\$1,000) for every offense thereafter, which may be recovered following notice and an opportunity to be heard in a proceeding before the Commissioner or his or her designee.

§ 6. Rules. The Commissioner shall promulgate such rules as are necessary to effectuate the provisions of this title.

§ 7. Severability. If any clause, sentence, paragraph, subdivision, section or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§ 8. SEQRA Determination. This legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this action is an unlisted action under the provisions of Title 6 NYCRR Part 617, and that based on an evaluation of the environmental criteria set forth in §617.7(c) that are considered to be indicia of significant adverse environmental impacts, along with the recommendation of the Nassau County Planning Commission acting in its advisory capacity to the legislature, that such action will not have significant adverse impacts on the environment, and that no additional environmental review or action is necessary.

The proposal does not appear to significantly threaten any unique or highly valuable environmental or cultural resources as identified in or regulated by the Environmental Conservation Law of the State of New York or the Nassau County Charter and Code; and the action will have significant beneficial impacts by minimizing nitrogen leachate to groundwater and surface waters, which will minimize hazards to drinking water and human health, while alleviating cultural eutrophication stresses to surface waters.

§ 9. Effective Date. This law shall take effect sixty (60) days after becoming a law.

(Added by Local Law 11-2009, signed by the County Executive on June 16, 2009, effective sixty days thereafter.)

(*There is an additional Title 72 added by Local Law 12-2009.)

TITLE 72*

RED LIGHT CAMERA LAW

§ 1. Program Established.

a. Notwithstanding any other provision of law, Nassau County is hereby authorized and empowered to establish a demonstration program imposing monetary liability on the owner of a vehicle for failure of an operator thereof to comply with traffic-control indications in accordance with the provisions of this title. The Department of Public Works, for purposes of implementation of such program, shall be authorized to install traffic-control signal photo violation-monitoring devices and to operate such devices at no more than fifty intersections within and under the jurisdiction of the County at any one time.

b. Such demonstration program shall utilize necessary technologies to ensure, to the extent practicable, that photographs produced by such traffic-control signal photo violation-monitoring systems shall not include images that identify the driver, the passengers, or the contents of the vehicle. Notwithstanding this requirement, however, no notice of liability issued pursuant to this title shall be dismissed solely because a photograph or photographs allow for the identification of the contents of a vehicle, provided that the County has made a reasonable effort to comply with the provisions of this paragraph.

c. A special revenue fund is hereby established, to commence concurrently with the implementation of this demonstration program, to which all revenues collected pursuant to this demonstration program shall be deposited.

d. All funds collected pursuant to this local law shall be utilized solely to pay for expenses associated with the implementation and administration of the demonstration program and to provide funding for contracts, approved by the Nassau County Legislature, between the Youth Board, Department of Senior Citizen Affairs, Department of Veterans Services, Department of Mental Health, Chemical Dependency and Developmental Disabilities Services and contract agencies.

§ 2. Definitions.

a. For purposes of this title, "owner" shall have the same meaning as provided in article 2-B of the Vehicle and Traffic Law.

b. For purposes of this title, "traffic-control signal photo violation-monitoring system" shall mean a vehicle sensor installed to work in conjunction with a traffic-control signal which automatically produces two or more photographs, two or more microphotographs, a videotape or other recorded images of each vehicle at the time it is used or operated in violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law.

§ 3. Owner Liability.

a. The owner of a vehicle shall be liable for a penalty imposed pursuant to this title if such

vehicle was used or operated with the permission of the owner, express or implied, in violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law, and such violation is evidenced by information obtained from a traffic-control signal photo violation-monitoring system; provided, however, that no owner of a vehicle shall be liable for a penalty imposed pursuant to this title where the operator of such vehicle has been convicted of the underlying violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law.

b. A certificate, sworn to or affirmed by a technician employed by Nassau County, or a facsimile thereof, based upon inspection of photographs, microphotographs, videotape or other recorded images produced by a traffic-control signal photo violation-monitoring system, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation imposed pursuant to this title.

c. An imposition of liability under this title shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage.

d. If an owner receives a notice of liability pursuant to this title for any time period during which the vehicle was reported to the police department as having been stolen, it shall be a valid defense to an allegation of liability for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title that the vehicle had been reported to the police as stolen prior to the time the violation occurred and had not been recovered by such time. For purposes of asserting the defense provided by this subdivision it shall be sufficient that a certified copy of the police report on the stolen vehicle be sent by first class mail to the Nassau County Traffic and Parking Violations Agency, as the branch of the District Court of Nassau County that shall adjudicate liability of owners pursuant to section six of this title.

e. An owner who is a lessor of a vehicle to which a notice of liability was issued pursuant to section five of this title shall not be liable for the violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law provided that he or she sends to the Nassau County Traffic and Parking Violations Agency a copy of the rental, lease or other such contract document covering such vehicle on the date of the violation, with the name and address of the lessee clearly legible, within thirty-seven days after receiving notice from the Traffic and Parking Violations Agency of the date and time of such violation, together with the other information contained in the original notice of liability. Failure to send such information within such thirty-seven day time period shall render the lessor liable for the penalty prescribed by this title. Where the lessor complies with the provisions of this paragraph, the lessee of such vehicle on the date of such violation shall be deemed to be the owner of such vehicle for purposes of this title, shall be subject to liability for the violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title and shall be sent a notice of liability pursuant to section five of this title.

f. (1). If the owner liable for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title was not the operator of the vehicle at the time of the violation, the owner may maintain an action for indemnification against the operator.

(2) Notwithstanding any other provision of this title, no owner of a vehicle shall be subject to a monetary fine imposed pursuant to this title if the operator of such vehicle was operating such vehicle without the consent of the owner at the time such operator failed to obey a traffic-control indication. For purposes of this paragraph, there shall be a rebuttable presumption that the operator of such vehicle was operating such vehicle with the consent of the owner at the time such operator failed to obey a traffic-control indication.

g. Nothing in this title shall be construed to limit the liability of an operator of a vehicle for any violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law.

h. It shall be a defense to any prosecution for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title that such traffic-control indications were malfunctioning at the time of the alleged violation.

§ 4. Fines

a. An owner liable for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title shall be liable for a fine in the amount of fifty dollars for each violation. An additional penalty of twenty-five dollars for each violation shall be imposed for the failure to respond to a notice of liability within forty-two days after the mailing of the notice of liability.

b. All fines and penalties collected under this title shall be deposited with the county treasurer within the first ten days of the month following collection.

§ 5. Notice of Liability

a. A notice of liability shall be sent by first class mail to each person alleged to be liable as an owner for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title. Personal delivery on the owner shall not be required. A manual or automatic record of mailing prepared in the ordinary course of business shall be prima facie evidence of the facts contained therein.

b. A notice of liability shall contain the name and address of the person alleged to be liable as an owner for a violation of subdivision (d) of section eleven hundred eleven of the Vehicle and Traffic Law pursuant to this title, the registration number of the vehicle involved in such violation, the location where such violation took place, the date and time of such violation and the identification number of the camera which recorded the violation or other document locator number.

c. The notice of liability shall contain information advising the person charged of the manner and the time in which he or she may contest the liability alleged in the notice. Such notice of liability shall also contain a warning to advise the persons charged that failure to contest in the manner and time provided shall be deemed an admission of liability and that a default judgment may be entered thereon.

d. The notice of liability shall be prepared and mailed by the Nassau County Traffic and

Parking Violations Agency or its designee.

§ 6. **Adjudication of Liability.** Adjudication of the liability imposed upon owners by this title shall be by the Nassau County Traffic and Parking Violations Agency, as a branch of the District Court of Nassau County.

§ 7. **Report.** The County shall submit an annual report on the results of the use of a traffic-control signal photo violation-monitoring system to the governor, the temporary president of the senate and the speaker of the assembly on or before June first, two thousand ten and on the same date in each succeeding year in which the demonstration program is operable. Such report shall include, but not be limited to:

- a. a description of the locations where traffic-control signal photo violation-monitoring systems were used;

- c. the aggregate number, type and severity of accidents reported at intersections where a traffic-control signal photo violation-monitoring system is used, to the extent the information is maintained by the department of motor vehicles of New York State;
- d. the number of violations recorded at each intersection where a traffic-control signal photo violation-monitoring system is used and in the aggregate on a daily, weekly and monthly basis;
- e. the total number of notices of liability issued for violations recorded by such systems;
- f. the number of fines and total amount of fines paid after first notice of liability;
- g. the number of violations adjudicated and results of such adjudications including breakdowns of disposition made for violations recorded by such systems;
- h. the total amount of revenue realized by the County;
- i. expenses incurred by the County in connection with the program; and
- j. quality of the adjudication process and its results.

TITLE 73
REGULATION OF PRIVATE FIRE HYDRANTS
WITHIN RESIDENTIAL PRIVATE COMMUNITIES

Section 1. This law shall appear in the miscellaneous laws as title 73.

§ 2. Legislative Intent. This Legislature hereby finds and determines that ensuring the proper functioning of fire safety equipment in Nassau County is essential to protecting public safety.

This Legislature further finds and determines that firefighters experienced a difficult time containing a recent fire in Suffolk County due to the inadequate water flow coming from a fire hydrant located within a private co-operative community.

This Legislature further finds and determines that certain fire hydrants within Nassau County are not maintained by municipalities, but are instead the responsibility of private residential communities and pursuant to the Title 19 (NYCRR), Part 1225 Fire Code of New York State, Section 508 Fire Protection Water Supplies, such fire hydrants are to be tested for operation and flow each year.

This Legislature finds it be in the best interest of the County for the Nassau County Fire Commission to play a role in making certain that fire departments and all necessary parties have the information they need to fight fires as safely and efficiently as possible. Therefore, the purpose of this law is to require the person or entity responsible for testing the fire hydrants within private residential communities to annually file a certification with the Nassau County Fire Commission that they have performed the required annual test of their fire hydrants and have provided the results of those tests to their local fire department.

§ 3. Definitions. As used in this law, the following terms shall have the meanings indicated:

“Commission” shall mean the Nassau County Fire Commission.

“Fire Hydrant” shall mean a private fire hydrant that is not owned or maintained by a municipal entity.

“Private Residential Community” shall mean a residential community consisting of apartments, condominiums, townhouses, co-operative housing, or one or two family homes which utilizes private fire hydrants, and which is required to annually inspect and test fire hydrants pursuant to Title 19 (NYCRR), Part 1225 Fire Code of New York State, Section 508 Fire Protection Water Supplies.

“Responsible Person or Entity” shall mean any individual, business, firm, partnership, limited liability partnership, corporation, company, limited liability company, society, association, or any organized group of persons whether incorporated or not, responsible for ensuring that the annual fire hydrant testing within a private residential community is performed pursuant to Title 19 (NYCRR), part 1225 Code of New York State, Section 508 Fire Protection Water Supplies.

§ 4. Requirements. (a) The responsible person or entity shall submit a copy of the report generated following the annual fire hydrant testing within the private residential community from its annual fire hydrant testing performed pursuant to Title 19 (NYCRR), Part 1225 Fire Code of New York State, Section 508 Fire Protection Water Supplies to the local fire department responsible for providing fire protection services to the private residential community within thirty (30) days of the date in which the testing was required to be performed. The aforementioned report shall include, but not be limited to, the water pressure level coming out of each hydrant as measured by pounds per square inch (psi) and a calculation of the number of

gallons of water per minute from each hydrant based on a reading of twenty (20) psi of flowing pressure.

(b) The responsible person or entity shall submit a completed sworn affidavit with the Commission. The form of said affidavit shall be established by the Commission and shall state that:

(i) The responsible person or entity has caused the fire hydrant to be tested within the private residential community which is required annually under Title 19 (NYCRR), Part 1225 Fire Code of New York State, Section 508 Fire Protection Water Supplies; and

(ii) the responsible person or entity has filed a report containing the information described in Subsection (a) with its local fire department.

This affidavit shall be filed with the Commission within fifteen (15) days after the report described in Subsection (a) is filed with the local fire department.

§ 5. Penalties. (a) Any responsible person or entity other than a corporation violating any provision of this title, or failing to comply therewith, shall upon conviction be guilty of a misdemeanor punishable by a fine not exceeding five thousand dollars (\$5,000) or, by imprisonment for not more than one (1) year or both, for each and every offense. A corporation violating any provision of this title, or failing to comply therewith, or violating or failing to comply with any order or regulation made thereunder, shall upon conviction be guilty of a misdemeanor punishable by a fine not exceeding five thousand dollars (\$5,000) for each and every offense. The imposition of the penalty for any violation of this title shall not excuse the violation or permit it to continue, and each fifteen (15) days thereafter that the responsible person or entity fails to comply shall constitute a separate offense.

(b) Where a responsible person or entity has not previously been subject to a penalty imposed under this title, the penalties described in subdivision (a) of this section shall be imposed only after the responsible person or entity receives notice of the violation and fails to comply with the provisions of this title within thirty days.

(c) It shall be a defense to an action brought pursuant to this Title that the person who is the subject of the action is not a responsible person as defined in section three of this local law.

§ 6. Enforcement. The Commission shall promulgate such rules and regulations as it deems necessary for the implementation and enforcement of any provisions of this chapter.

§ 7. Applicability. This law shall apply to all fire hydrant operability tests within a private residential community required to be performed pursuant to Title 19 (NYCRR), Part 1225 Fire Code of new York State, Section 508 Fire Protection Water Supplies after the effective date of this local law.

§ 8. Severability. If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

(Added by Local Law No 24-2009, signed by the County Executive on October 26, 2009 to become effective one-hundred-and-twenty days after it shall have become a law.)

TITLE 74

REGULATION OF DROP-OFF BINS

§.0 Short Title. This law shall be known as “Drop-off Bins.”

§ 1 Legislative Intent. This Legislature finds and determines that unidentified drop off bins needs to be regulated. The Legislature further finds that residents are easily misled to think that items dropped in an unmarked bin are going to charity, when, in fact, that is not the case, and oftentimes, bins are set up by for-profit enterprises that take the discarded clothing and resell it for profit. Therefore, the primary purpose of this law is to provide transparency to the residents of the County regarding their donations.

- D. No drop off bin shall be used for advertising or promotional purposes other than the name, location of the principal place of business and the telephone number of the person placing, using or employing a drop off bin.
- E. The drop off bin shall be placed on a paved surface.
- F. No drop off bin shall be larger than six (6) feet high by six (6) feet wide by five (5) feet deep.
- G. The drop off bin must be of a neutral color, or closely compatible with the color of surrounding structures so as to make the bin as visually unobtrusive as possible.
- H. The drop off bin shall be of the type that is enclosed by use of a receiving door and locked so that the contents of the bin may not be accessed by anyone other than those responsible for the retrieval of the contents.
- I. Any Person, Owner, tenant, lessee and/or agent having a legal interest in the subject property, who has upon his/her property a drop off bin, or whose name appears upon a

drop off bin, shall maintain the drop off bin and its surrounding area in a clean and neat condition, including but not limited to, the following:

1. any graffiti placed on the drop off bin must be removed within seventy-two hours following notice of its existence;
2. if a drop off bin becomes damaged or vandalized, it shall be repaired, replaced or removed within five (5) days of receipt of notice of such vandalism, unless the damage is such as to constitute a danger to persons or property in which case it shall be made safe within twenty-four (24) hours of notice of said condition;
3. each drop off bin must be regularly emptied of its contents so that it does not overflow, resulting in clothing or other material being strewn about the surrounding area.

§ 4. Display Requirements.

The information required by Section 3(C) of this law shall at all times be conspicuously displayed on the exterior of all planes forming the perimeter sides of every drop off bin in upper case type size of no less than three (3) inches and in a color that contrasts with the color of the drop off bin. In no event shall any other such lettering displayed on a drop off bin be larger than the lettering required by Sections 3(C) and 5(A) of this law.

§ 5. Exception.

TITLE 76

SEX OFFENDER IDENTIFICATION AND
DISCLOSURE LAW

§1. Short Title. This law shall be known as the “Sex Offender Identification and Disclosure Law” and shall appear in the Miscellaneous Laws of Nassau County as Title 76

§2. Legislative Intent. This Legislature finds that the New York State Sex Offender Registration Act (“SORA”) provides for the registration of convicted sex offenders and has established a Sex Offender Registry whereby the public may inquire about the registration status of any individual. This service is provided as a public benefit by New York State, and may be accessed free of charge.

This Legislature further finds that this Sex Offender Registry is a cost-free method of communication by which the public may identify a sex offender at any risk level as provided by SORA

This Legislature further finds that sex offenders have a high rate of recidivism and therefore pose a serious risk to youth when entrusted with their care or supervision. As such, parents and guardians of children have an interest in ascertaining whether any principal, employee, volunteer or independent contractor employed by the youth agency is a registered sex offender pursuant to SORA.

This Legislature further finds that a person that submits an inquiry to the Sex Offender Registry, including a parent or guardian of a child, will be informed of an individual’s sex offender status only if the person calling can provide that an individual’s name and one of four identifiers for that person (date of birth, social security number, driver license number or exact address).

This Legislature further finds that a youth agency would more likely have access to this information and would therefore be able to obtain the sex offender status of a principal, employee, volunteer, or independent contractor and provide the same to a parent or guardian of a child upon request.

Therefore, the primary purpose of this law is to require youth agencies to inquire as to the sex offender status of all principals, employees, volunteers, and independent contractors for the calendar year by submitting an inquiry to the Sex Offender Registry and to provide, upon the written request of a parent or guardian of a child, a written statement identifying registered sex offenders employed by said agency within five (5) business days of the receipt of said request.

§5. Disclosure of Sex Offender Status. Upon receipt of this written request, the Youth Agency shall provide that a parent or guardian of a child with a written statement by a principal, officer or director of the agency or organization ("Disclosure Statement") stating the following:

- (a) That the Youth Agency has inquired as to the Sex Offender Status of all principals, employees, volunteers, and independent contractors of the Youth Agency for the calendar year by submitting an inquiry to the Sex Offender Registry; and
- (b) That all principals, employees, volunteers, and independent contractors subject to inquiry are not Registered Sex Offenders and do not have a pending risk level pursuant to SORA, or if the person(s) subject to inquiry is a Registered Sex Offender or has a pending risk level pursuant to SORA, the Youth Agency must disclose the sex offender risk level as identified by the Sex Offender Registry for that individual(s) to the requesting parent or guardian of a child; and
- (c) That the Youth Agency shall for the remainder of the calendar year inquire as to the Sex Offender Status of all principals, employees, volunteers, and independent contractors prior to the hiring or retention of all principals, employees, volunteers, and independent contractors.
- (d) That the Youth Agency shall provide another Disclosure Statement to the parent or guardian of a child within five (5) business days of the receipt of the results of the inquiry to the Sex Offender Registry for all principals, employees, volunteers, and independent contractors hired or retained after the date of

the initial Disclosure Statement should the inquiry identify a Registered Sex Offender or an individual with a pending risk level pursuant to SORA.

§6. Disclosure Statements. Disclosure Statements must be provided to the requesting parent or guardian of a child by mailing the same within five (5) business days of receipt of the written request from the parent or guardian of the child, or within five (5) business days of the receipt of the results of the inquiry to the Sex Offender Registry, whichever is sooner.

§7. Penalties. Any Youth Agency that violates any provision of this law shall be guilty of a violation punishable by a fine of not more than two hundred and fifty dollars(\$250).

§8. Severability. If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder hereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

TITLE 77

LAW AGAINST DISRUPTION OF FUNERAL RELATED EVENTS

§1. Short Title. This law shall be known as the “Law Against Disruption of Funeral Related Events” and shall appear in the Miscellaneous Laws of Nassau County as Title 77

§2. Legislative Intent. This Legislature hereby finds and determines that the loss of a family member is an emotional trauma for the decedent’s surviving family members.

This Legislature further finds that surviving family members have a significant interest in quietly mourning the loss of their loved one without being disrupted by those who are not mourning that loss.

This Legislature further finds that funeral related events have been disrupted by individuals who are demonstrating within close proximity to them.

This Legislature further finds that demonstrating at funerals related events prevents grieving

family members from mourning their deceased loved one in peace.

This Legislature further finds that family members of the deceased frequently suffer emotional distress when demonstrations occur during, immediately before or after funeral related events.

This Legislature further finds that a full opportunity exists under the terms and provisions of this law for the exercise of free speech and other constitutional rights at times other than the period from one hour before the start of funeral related events until one hour after the completion of the same.

Therefore, the primary purpose of this law is to protect the privacy of grieving families and prevent the disruption of funeral related events and to maintain the peaceful nature of cemeteries and funeral locations by prohibiting demonstrations during, one hour before and one hour after funeral related events in the County of Nassau while protecting the First Amendment rights of individuals.

§3. Definitions. As used in this title:

- a. Demonstration: Picketing and other protest conduct, including but not limited to oration and speech with or without the use of sound amplification equipment or devices, and display of signs with or without verbal accompaniment.
- b. Funeral Related Event: Ceremonies, wakes, funerals, burials, Shiva, and other memorial services held in connection with the deceased person.

§4. Prohibitions. No person in the County of Nassau shall engage in a demonstration within three hundred (300) feet of any church, synagogue or other place of worship, mortuary, funeral home, cemetery, or other location at which a Funeral Related Event is being held within one hour prior to the commencement of any Funeral Related Event, during any Funeral Related Event, or until one hour following the completion of any Funeral Related Event.

§5. Enforcement: Any person who knowingly violates the provisions of this law shall be guilty of a misdemeanor punishable by a fine of up to \$1,000.00 and/or up to one year's imprisonment.

§6. Severability. If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder hereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

§7. SEQRA Determination

It is hereby determined by the Nassau County Legislature, as lead agency, and pursuant to the provisions of the State Environmental Quality Review Act ("SEQRA"), 8 NYECL section 0101 et seq. and its implementing regulations, Part 617 of 6 NYCRR, and Section 1611 of the County Government Law of Nassau County, that this Local Law will not have a significant impact on the environment and that no further environmental review or action is required.

§8. Effective Date: This law shall take effect immediately after becoming a law.
